

July-16-09

Honorable Judge,

08-203-55-REB

I'm writing concerning Cornerstone bankruptcy. My mother and father (now deceased) invested in this and would love to see the process speeded up as soon as possible. My mother has Alzheimer's. We are struggling to keep her at home with her finances. We try to provide good care for her but it's getting harder due to things like Cornerstone. My parents have worked very hard in their life to be able to provide for such things in their later years. Please help us as well as many others to speed the process and help us get our money back.

Thank you -

Marilyn Crawford  
Daughter
