Re: Notice of Breaches of Contracts with Medical Hospitalists, LLC ("MedHosp") and Siskin Physicians, LLC ("Siskin")

Wendy:

We represent MedHosp and Siskin. Fayette Memorial Hospital Association, Inc. d/b/a Fayette Regional Health System ("FRHS") is in material breach of numerous obligations under its Agreement for Hospitalist Physician Services with MedHosp (the "Hospitalist Agreement") and its continuing obligations under its Agreement for Physician Services Emergency Department with Siskin (the "Emergency Department Agreement" and collectively with the Hospitalist Agreement, the "Agreements"). I've enclosed copies of the Agreements for your reference. While the breaches are likely not surprising to you, considering FRHS's bankruptcy filing, I write because FRHS has committed, and continues to commit, numerous post-petition breaches of its obligations under the Agreements. I'm hopeful you can help us resolve those violations without the need to involve the bankruptcy court.

First, FRHS is required to provide MedHosp and Siskin, as applicable, with all information reasonably required for MedHosp and Siskin to present bills to patients and third-party payers for the professional services provided by MedHosp and Siskin under the Agreements. Despite numerous requests by MedHosp, Siskin, and its third-party billing company, MedData, for this information over the course of multiple months, FRHS has failed and/or refused to provide the required information. As a result, MedHosp and Siskin have been unable to bill their professional services for numerous months, dating back to at least May of this year. We are not sure why FRHS has failed to provide the requested information but, as expected, the failure has significantly impacted MedHosp and Siskin's businesses. If this breach is not cured immediately, MedHosp and/or Siskin will seek in FRHS's bankruptcy case to compel the turnover of the billing information and recover damages, at least for FRHS's postpetition breaches of its obligations under the Agreements.

Second, under the Hospitalist Agreement, FRHS agreed that MedHosp would be FRHS's exclusive provider of hospitalist physician services. *See* Section 8.3 of the Hospitalist Agreement. While the Hospitalist Agreement is in effect, FRHS is not permitted to engage the services of any other individual, contractor or provider to provide hospitalist services without MedHosp's prior written consent. *Id.* Despite this, FRHS is attempting to engage Dr. Singh to provide hospitalist services at FRHS. MedHosp demands that FRHS cease all efforts to engage Dr. Singh independently in violation of the Hospitalist Agreement.

Finally, FRHS agreed in the Emergency Department Agreement that it would pay Siskin $28,000.00 if it engaged, either directly or indirectly or through a third party, any physician Siskin or its affiliates introduced to FRHS in performing its duties under the Emergency Department Agreement. *See* Section 1.3 of the Emergency Department Agreement. That covenant survived termination of the Emergency Department Agreement. *Id.* Despite this, FRHS has, since the filing of its bankruptcy, tried directly or indirectly to engage Dr. Thompson, Dr. Brule, Dr. Harrison, Dr. Fairbanks and Dr. Dobay to provide emergency department services at FRHS. Siskin expects FRHS to timely pay Siskin should FRHS or any third party engage these or other Siskin physicians to perform emergency department services at FRHS. Absent timely payment, Siskin will seek allowance and payment as an administrative expense in FRHS's bankruptcy case. In the future, should FRHS wish to correspond with Siskin doctors, it would be beneficial to all parties if FRHS reached out to Siskin, such that we avoid any misunderstandings and know that FRHS intends to honor its obligations.

Please let me know if you have questions regarding the foregoing or if we should discuss in general. We hope that we can resolve these issues without involving the bankruptcy court. In the interim, MedHosp and Siskin expressly reserve all its rights, powers, privileges and remedies under the Agreements and applicable law.

Sincerely,

Dustin R. DeNeal
