**Filters and Heating System Inspections**

Change or clean your furnace filter at least three times during the heating season. A clean filter will help your furnace operate more effectively and could save you money.

Keep your heating system running safely and efficiently. A qualified heating contractor should inspect it once a year and make repairs when needed. It's best to have the system checked during summer months -- before you'll need it.

ENERGYSHARE: Help people without heat by donating to EnergyShare. Add \$1, \$2, \$6, \$12, \$18 or \$36 to your payment or mail a separate check payable to EnergyShare, Salvation Army, P.O. Box 5847, Cleveland, OH 44101.
