PROPOSAL / DISTRIBUTION SERVICES

In re:

Ulrich Felix Anton Engler

Private Commercial Office, Inc.,

And PCO Client Management, Inc., Debtors

US Bankruptcy Court - FLMB

Case No. 9:08-bk-04360-MGW

Chapter 7 (Substantively Consolidated)

Services – Secure Web-Based Claim Site, Notice and Distribution

BMC will design and host a secure, web based German/English claim verification interface and registry. The site registration will include two factor verification. This means in order to register, the claimant will enter an email address or phone number and receive a confirmation code to enter into the claim platform. Once claimant is registered and on line the platform contemplates requiring upload of a copy of identification (such as Driver's License).

The webform would include the option to select to receive a check by mail or an electronic payment (e.g., PayPal or wire). Check by mail will carry no cost to claimants. If electronic payment is selected, Claimant will check a box to agree that if BMC Group must pay third party charges for bank wires, to Pay Pal or whatever electronic payment method is used, such direct expense may be withheld from the claimant's distribution.

A bilingual notice would be mailed to all affected claimants to advise of the available distribution and claim verification process. BMC Group may engage in additional third party skip tracing if notices are returned undeliverable. BMC Group would also be authorized to withhold the direct expense of international skip trace.

The platform will include miscellaneous on-demand reporting available to Trustee and Court. Undeliverable funds will be reported and submitted to the Court Registry.

Fees

Flat fee of \$75,000 in advance.
