Cost Basis on fixed income securities is adjusted for amortization, accretion or principal paydowns. The method of calculation is based upon the type of fixed income security and certain attributes, obtained from sources believed to be reliable. In the event, one or more of these attributes is changed, there may be a temporary incorrect adjusted cost basis reflected until the portfolio system is amended to reflect this change. These calculations will not be performed under certain circumstances, including those involving continuously callable bonds, foreign bonds, variable rates, bonds in default, index-linked bonds, bonds sold short or bonds that have a negative yield. This information is meant as a general guide and you should consult your tax advisor in the preparation of your tax returns.

5 Unrealized gains and losses are not reported for securities for which cost basis or market value is not available.

Disclosures and Other Information

Pricing - Securities prices may vary from actual liquidation value. Prices shown should only be used as a general guide to portfolio value. Prices are received from various pricing services. However, pricing services are sometimes unable to provide timely information. Where pricing sources are not readily available, particularly on certain debt securities, estimated prices may be generated by a matrix system taking various factors into consideration. The pricing of listed options takes into account the last closing price, as well as the current bid and offer prices. Where securities have not been priced, such securities have not been included in the Asset Allocation information at the beginning of this statement.

Reinvestment - The dollar amount of Mutual Fund distributions, Money Market Fund dividend income, or dividends for other securities shown on your Statement may have been reinvested. You will not receive confirmation of these reinvestments. However, information pertaining to these transactions which would otherwise appear on confirmations, including the time of execution and the name of the person from whom your security was purchased, will be furnished to you upon written request to your introducing firm. In dividend reinvestment transactions, Pershing acts as your agent and receives payment for order flow, the source and nature of which payment will be furnished to you upon written request to your introducing firm.
