Subject: Re: FW: Fleming LPTs

To confirm our discussion today, to the extent that Ace is settling LPT claims between Ace and third parties, these claims are not subject to the stay and will not require court approval. As further confirmation that your settlement of the LPT claims does not need court approval, Fleming has authority to proceed with their prepetition workers' compensation claims in the ordinary course, pursuant to court order.

Hope that resolves the issue. Of course, please contact us with further concerns.
