On July 18, 2018, Plaintiff, Andrea Weir, filed a Petition in the District Court of Oklahoma County (*Weir v. Gold's Gym Oklahoma, LLC.* - CJ-2018-3860) alleging Gold's Oklahoma, LLC was negligent in the care and maintenance of its facility causing Plaintiff to fall and injure herself. On September 12, 2019, Defendant filed a Motion for Summary Judgment. The hearing on said motion was set for hearing on October 18, 2019. Due to the fact that Defendant had outstanding discovery responses, the hearing on Defendant's motion was continued to November 1, 2019. The hearing was then again continued to December 18, 2019. Defendant still had not provided discovery responses, and the hearing was reset for January 22, 2020. Plaintiff had only received partial discovery responses one (1) week prior to the January 22, 2020 hearing. Plaintiff requested a continuance to allow Plaintiff time to properly respond to Defendant's motion since Plaintiff didn't previously have the responses necessary to respond to Defendant's motion. The District Court Judge denied Plaintiff's motion for continuance and granted Defendant's Motion for Summary Judgment, without Plaintiff having been afforded the opportunity to fully respond, argue, and/or present evidence of the contested factual issues which are solely in the province of the jury for decision. On February 21, 2020, Plaintiff filed a Motion to Reconsider and Vacate and said motion was set for hearing on May 13, 2020. Defendant filed a response on March 6, 2020. Due to COVID-19, the District Courts in Oklahoma were closed, and the May 13, 2020 hearing was continued to May 27, 2020. On May 7, 2020, Defendant filed its Notice of Bankruptcy in the District Court case. Due to the automatic stay issued when Defendant's bankruptcy petition was filed, the hearing on Plaintiff's *Motion to Reconsider and Vacate* was stricken, to be reset once the bankruptcy stay is lifted. Plaintiff is filing this proof of claim alleging Gold's Oklahoma, LLC. is indebted to her in the amount of \$1,000,000.00. Attached is Plaintiff's computation of damages detailing the injuries Plaintiff sustained. Plaintiff is requesting compensation for the injuries sustained; medical treatment, past, present, and future; and pain and suffering. In the event Plaintiff's motion currently pending in the District Court of Oklahoma County is granted, Plaintiff's attorneys, Colbert Cooper Hill, have a contractual and statutory claim to a portion of any proceeds Plaintiff is awarded as compensation for services and rendered and costs expended in litigation.

To whom it may concern:

Andrea Weir sustained injuries when she walked into a dark theater room at Gold's Gym where she stepped on a treadmill that had been left on. She states she did not realize that the treadmill was on. Andrea was initially evaluated on 02/25/2018 at this office and began outpatient therapy for neck, mid, lower back, right wrist, and right thumb injuries.

Ms. Weir has been compliant with care and has consistently shown a positive mental outlook. She was able to resolve her neck and mid back complaints for the most part, but due to the severities of her injuries she was only able to partially resolve her ongoing lower back and right hand/ wrist pain with therapy. At this time, we feel that Andrea has reached a stationary point in her care and we have achieved maximum medical improvement with outpatient therapy regarding her current complaints.

### PHYSICAL EXAMINATION:

Andrea is a 29-year-old female. She is well-nourished, alert, attentive, and has a friendly demeanor. Her vitals were: Height: 5'6", Weight: 150lbs, BP: 91/60, Pulse: 100 BPM. Andrea has made some progress with outpatient therapy decreasing her pain from a beginning VAS 8/10 to a current VAS 5/10. She continues to display apprehension and reports pain during lumbar range of motion today, but only minor stiffness and mild discomfort remains in the cervical spine down to the mid scapular regions. She is intolerant to broad pressure over the lumbar paraspinal musculature. Dagerine's Triad and Minor's sign remain positive. Spinal Percussion, Piriformis, Yoeman's, and Hibbs test increase lumbar pain today. DTR +2 biceps, triceps, patellar, and achilles. No discernable difference or loss in sensation was discovered to soft or sharp touch bilaterally over the upper or lower extremity dermatomes. Pupillary constriction, accommodation, fields of gaze, facial expression, and tongue protrusion produce no deficit.

### PLAN OF CARE:

Due to persistent lumbar pain and radicular symptoms Andrea was referred for an MRI of the lumbar spine on 03/13/2018. Based on the results of her MRI she was referred to Jason Jackson, MD for an epidural steroid injection on 4/30/2018. She will need to follow up with McBride Orthopedics for potential right hand/wrist surgery if required and Dr. Jackson's office for additional lumbar epidural injections if necessary. Andrea cannot be considered to be at pre-injury

status today due to her ongoing lumbar and right wrist/hand complaints. She may require further medical treatment in the future as a direct result of the falling injuries sustained at Gold's Gym on 04/23/2018.

Andrea is being treated for acute injuries only which are the direct result of a falling accident she describes took place on 04/23/2018. She is undergoing this course of care to treat specifically these acute injuries and no consideration is given to any chronic physical complaints. These services are medically necessary to meet the patient's needs for acute injuries only and are not palliative or elective in nature.

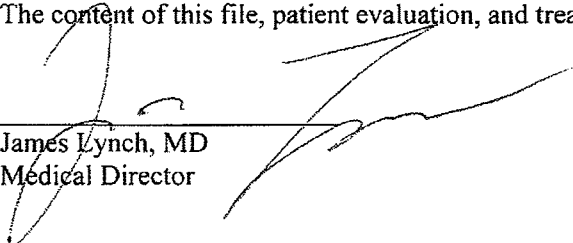

If our office can be of further assistance regarding Ms. Andrea Weir's condition, please do not hesitate to contact us.

Sincerely,

Ron Somerville, DC  
Director of Outpatient Therapy

## ADDENDUM

This note will serve as an addendum to my note from October 24, 2018 where upon in the first paragraph I stated that after falling off a treadmill in February of 2018, she had recovered from that, and then later in the summer or fall, began to have back pain.

I have been now supplied with medical records that contradict this. I have notes from Oklahoma Injury Care from March 1, 2018, commenting on the same, and then procedure notes from Dr. James Jackson on May 7, 2019 and June 25, 2018, referring to ongoing issues with her back and legs.

Sincerely,

  
Robert E. Tibbs, Jr., M.D.
