NOTICE OF LAST DATE AND PROCEDURES FOR FILING PROOFS OF CLAIM

TO ALL PERSONS ASSERTING A CLAIM AGAINST ANY OF THE ABOVE ENTITIES:

On March 6, 2002, the United States Bankruptcy Court for the Northern District of Illinois, Eastern Division (the "Bankruptcy Court"), entered an Order in the Kmart Chapter 11 cases (the "Bar Date Order") establishing July 31, 2002, as the general claims bar date (the "General Bar Date") Except as described below, the Bar Date Order requires that any Claims (as defined herein) against any of the Debtors listed on Exhibit A attached to this Bar Date Notice be filed with the claims agent appointed by the Bankruptcy Court, Trumbull Services, LLC (the "Claims Agent") by submitting a proof of claim to either of the following addresses

If by U.S. Mail
Kmart Corporation, et al
c/o Trumbull Services, LLC
P.O. Box 426
Windsor, C.T. 06095

If by Overnight Courier or Hand Delivery Kmart Corporation, et al c/o Trumbull Services, LLC Griffin Center 4 Griffin Road North Windsor, CT 06095

Proofs of claim must be actually received on or before 4 00 p m, prevailing Eastern Time, on the General Bar Date, **July 31, 2002** Proofs of claim are deemed filed only when they are actually received by the Claims Agent, and facsimile submissions will not be accepted

For your convenience, a proof of claim form is enclosed with this Bar Date Notice, which sets forth the amount, nature and classification of your Claim(s) as set forth in the Debtors' schedules of assets and liabilities to be filed with the Bankruptcy Court on before April 15, 2002 (the "Schedules")

ENTITIES REQUIRED TO FILE A PROOF OF CLAIM

Pursuant to the Bar Date Order, all persons or entities, including, without limitation, individuals, partnerships, corporations, estates, trusts, unions, indenture trustees, the U|S| Trustee and governmental units (individually, an "Entity") holding claims against the Debtors (whether secured,

I ntities include, but are not limited to, the following Entities (1) creditors whose Claims against a Debtor arose out of the rejection of executory contracts or unexpired leases by the Debtors prior to the entry of the order establishing the General Bar Date, (2) governmental units holding claims against a Debtor for unpaid taxes, whether arising from prepetition tax years or periods or

not limited to, claims for damages or recission based on the purchase or sale of any such securities must file a proof of claim on or prior to the General Bar Date unless another exception set forth herein applies

CLAIMS RELATED TO REJECTION OF EXECUTORY CONTRACTS AND UNEXPIRED LEASES

Any Entity whose Claims arose out of the rejection of an executory contract or an unexpired lease must file a proof of claim on or before the later of (1) the date set by the Court in the Order authorizing the rejection of such contract or lease, and (2) the General Bar Date (the "Rejection Bar Date")

CLAIMS RELATED TO AMENDMENTS TO SCHEDULES

If the Debtors amend their Schedules subsequent to the mailing and publication of this Bar Date Notice to reduce the undisputed, noncontingent and liquidated amount or to change the nature or classification of a Claim against a Debtor reflected therein, then the affected claimant shall have until the later of (1) 30 days after such claimant is served with notice that the Debtors have amended their Schedules or (2) the General Bar Date to file a proof of claim or to amend any previously filed proof of claim (the "Amended Schedule Bar Date")

CONSEQUENCES OF FAILURE TO FILE A PROOF OF CLAIM

Any Entity that is required to file a proof of claim, but that fails to do so in a timely manner, will be forever barred, estopped and enjoined from

- asserting any Claim against any of the Debtors that such entity has that (1) is in an amount that exceeds the amount, if any, that is set forth in the Schedules, or (11) is of a different nature or in a different classification (in either case, an "Unscheduled Claim"), and
- young upon, or receiving distributions under, any plan or plans of reorganization in these chapter 11 cases in respect of an Unscheduled Claim

If it is unclear from the Schedules whether your Claim is disputed, contingent or unliquidated as to amount or is otherwise properly listed and classified, you must file a proof of claim on or before the General Bar Date. Any Entity that relies on the Schedules bears responsibility for determining that its Claim is accurately listed therein.

FILING PROOFS OF CLAIM AGAINST OTHER DEBTORS

Any Entity asserting Claims against more than one Debtor must file a separate proof of claim with respect to each such Debtor. If more than one Debtor is listed on a form, the Debtors will treat such claim as filed against the first listed Debtor. All Entities must identify on their proof of claim the holder or holders of the Claim and the particular Debtor against which their Claim is asserted. A list of Debtors, together with their respective case numbers, is attached to this Bar Date Notice as Exhibit A. Any Claims filed in the Joint Administration Case Number (Kmart Corporation, Case No. 02-02474) shall be deemed filed only against Kmart Corporation.

EXPLANATIONS

| Filing of | A bankruptcy case under chapter 11 of the Bankruptcy Code (title 11, United States Code) has |
|------------------------------|--|
| Chapter 11 | been filed in this court by or against the Debtors listed in this notice, and an order for relief has |
| Bankruptcy Case | been entered. Chapter 11 allows a debtor to reorganize or liquidate pursuant to a plan. A plan is not effective unless confirmed by the court. You may be sent a copy of the plan and a disclosure statement telling you about the plan, and you might have the opportunity to vote on the plan. You will be sent notice of the date of the confirmation hearing, and you may object to confirmation of the plan and attend the confirmation hearing. Unless a trustee is serving, the Debtors will remain in possession of the Debtors' property and may continue to operate any business. |
| Creditors May Not | Prohibited collection actions are listed in Bankruptcy Code § 362. Common examples of |
| Take Certain | prohibited actions include contacting the Debtors by telephone, mail or otherwise to demand |
| Actions | repayment; taking actions to collect money or obtain property from the Debtors; repossessing the Debtors' property; starting or continuing lawsuits or foreclosures. |
| Meeting of | A meeting of creditors is scheduled for the date, time and location listed on the front side. <i>The</i> |
| Creditors | Debtors' representative must be present at the meeting to be questioned under oath by the trustee and by creditors. Creditors are welcome to attend, but are not required to do so. The meeting may be continued and concluded at a later date without further notice. |
| Claims | A Proof of Claim is a signed statement describing a creditor's claim. A Proof of Claim form is included with this notice. You can obtain additional Proof of Claim forms at any bankruptcy clerk's office, or from the Claims Agent, Trumbull Services, LLC, who can be contacted at the address and phone number listed in the attached Notice. You may look at the schedules filed at the bankruptcy clerk's office. If your claim is scheduled and is <i>not</i> listed as disputed, contingent, or unliquidated, it will be allowed in the amount scheduled unless you file a Proof of Claim or you are sent further notice about the claim. Whether or not your claim is scheduled, you are permitted to file a Proof of Claim. If your claim is not listed at all <i>or</i> if your claim is listed as disputed, continent or unliquidated, then you must file a Proof of Claim or you might not be paid any money on your claim against the Debtors in the bankruptcy case. The deadline for filing a proof of claim is July 31, 2002 |
| Discharge of Debts | Confirmation of a chapter 11 plan may result in a discharge of debts, which may include all or part of your debt. See Bankruptcy Code § 1141(d). A discharge means that you may never try to collect the debt from the Debtors, except as provided in the plan. |
| Bankruptcy Clerk's Office | Any paper that you file in this bankruptcy case should be filed at the bankruptcy clerk's office at the address listed on the front side. You may inspect all papers filed, including the list of the Debtors' property and debts at the bankruptcy clerk's office. |
| Legal Advice | The staff of the bankruptcy clerk's office cannot give legal advice. You may want to consult an attorney to protect your rights. |

my eye, I was bleeding a lot from the cut, It was more then ten minute before any one came to help me. The women at the cafeteria came over with some ice. And two women from the service desk came over 4 told them to call 911 for a ambulance, then a nother women came told me her name was Vickie and she was the Asst. manager, She took a report She ask me how and why I fell, I told her that the floor was wet with some oilie solution and showed it to her, she had a wet sign put in place Then the Manager came. And then the ambulance came and took me to the hospital. They treated me, I didnt get any names, When I get the bills all that information will be on it. KMart is responible for all my injuries and my broken glasses, And my billfold was several ft. from me and when $^{
m I}$ got it back there was 120.00 gon $m{e}$ out of it, And I know it was in the billfold. Sence the accident I have a lot of pain in my back and I have headaches every day. I'm going to have treatments two to three times a week some time more, The problem is I have to pay for the 13 Rapit treatments my self, If I dont get what is coming too me and I can't wait no five or six week, I will get a Attorney.

Dear Ms Peters.

Regarding Case # 269700 Under the assumption that I had a sinus infection, I have been on 3 different medications as prescribed by Dr. Bohnsack since 7/27/01. Upon taking my third prescription I had a bad dizzy spell and admitted myself into Harris Hospital. Dr. Bohnsack conducted a test to check on my sinus cavity and concluded that I had a bad reaction to my prescription, not a sinus infection. Dr Bohnsack prescribed a nose spray only and sent me to Dr. Kostohryr who took an x-ray and determined that everything was clear. He later sent me to Quest Diagnostics for blood work and that was also found to be clear of infection. Then Dr. Kostohryr sent me to Dr. Tanna MD who determined that I needed a CS. The results of that were also clear, causing Dr. Kostohryr to be at a loss to explain why I was in so much pain. Since I had been experiencing fuzzy/unclear thinking and memory and bad head aches all the time, he sent me back for additional blood work which also yielded clear results. Therefore, as my next step in this effort to get relief from so much daily pain. I am going to see a pain Dr. on 10-09-01 this is Dr. S.K. Nair MD, who will be my last hope for help. I am very tired of taking pain medication 3-4 times daily in addition to having to take medication for muscle spasms. I can not go on like this much longer. It is even more frustrating to think that I am in this condition due to someone else's neglect since the accident I suffered at the K-Mart store on 2-23-01. I will get all my paper work together to send to you as soon as I get the report from Dr. Nair. For now I will need to continue to lay down after only a few hours of activity and do only as much as I am able to do. I will also need to continue relying on the help of my husband and daughter. In order to contact me, my husband's FAX # is (817) 551-5627

Yours truly,

Virginia McGrath

RE: VIRGINIA MCGRATH

Dear Dr. Tanna:

Thank you for referring this patient to me for evaluation.

IIISTORY OF PRESENT ILLNESS: The patient is a 68-year-old female who was involved in an accident in February 2001. She fell down at a K-Mart store and had a lateration on the left side of the forehead above the eyebrow. There was no loss of consciousness. She thinks she had some memory loss afterwards. Now she is getting dizzy. She had a CT acan and MRI scan of the head, and they were negative. She complains of a lot of pain over the left eye. She recently had bleeding from the left nostril. She has neck and back pain. She has a history of scollosis.

PAST MEDICAL HISTORY: Allergies and gastroesophageal reflux disease.

SOCIAL HISTORY: The patient does not smoke, drink or abuse drugs.

FAMILY HISTORY: Unremarkable.

REVIEW OF SYSTEMS: Negative except as mentioned above.

PHYSICAL EXAMINATION: Height is 53° and weight is 150 pounds. Pulse rate is 80 beats per minute and regular. Blood pressure is 130/80. The neck is supple. There is a questionable right cervical bruit. Chest is clear to auscultation. Cardiovascular examination is unremarkable. S1 and S2 are present and normal.

RE: VIRGINIA MCGRATH

October 22, 2001

Page 2

NEUROLOGICAL EVALUATION: The patient is awake, alert and oriented. Language function is intact. Memory function and thought processes are intact. Overall, patient's mental status is normal. On cranial nerve examination, visual fields are intact. Fundi are benign. Pupils are equal and normal bilaterally. Reaction to light and accommodation is present and normal. Extraocular muscles are intact. There is no nystagmus. There is no facial asymmetry. Tongue and uvula are in the midline. Gag response is normal. Speech and swallowing functions are intact. Sternomastoid, trapezius and masticatory muscles are normal. Sensory examination of the face is normal. Hearing is intact. On motor system examination, muscle strength is 5/5, bilaterally symmetrical and normal. Muscle stretch reflexes are 2/4, bilaterally symmetrical and normal. Muscle tone and bulk are normal. Plantar response is bilaterally downgoing. On sensory examination, all primary and cortical modalities are normal. Gait is intact. Coordination is normal.

IMPRESSION:

- 1. Headaches, probably post traumatic. This may be secondary to the forehead laceration causing some degree of neuropathic pain in that area.
- 2. Cervicalgia
- 3. Low back pain.
- 4. Possible right carotid stenosis.

RECOMMENDATIONS: At this time, I am not prescribing any medications. I would like to review the MRI and CT scan films. I also recommend that she have a carotid doppler study. After reviewing these studies, we may schedule her for EMG testing. I will see the patient again in a few weeks.

Thank you for this kind referral.

I wellow

Sincerely,

K. Nair, M.D.

SKN/mm

UNIVERSAL CONSENT FOR TREATMENT

I understand that my health condition requires inpatient or outpatient admission. I consent to and authorize testing, treatment and/or hospital care as ordered by my doctor and his/her consultants, associates and assistants. I authorize Hospital nurses, employees and others as necessary to carry out the instructions of my doctor(s) with respect to the procedures and treatment they have ordered. I understand that it may be necessary for representatives of outside health care companies to assist in my care. I also understand student nurses and others in professional training programs may be among the individuals who provide care to me. If I am to receive obstetrical care, this consent is given for any child(ren) born to me during this hospitalization. I understand that in connection with my treatment, photos or videos may be taken. Any tissue or body parts removed from my body may be retained or disposed of by the Hospital at its sole discretion

I also understand and acknowledge that Texas Law provides that if any health care worker is exposed to my blood or other bodily fluid, the Hospital may perform tests, with or without my consent, on my blood or other bodily fluid to determine the presence of Hepatitis B, Hepatitis C or Human Immunodeficiency Virus (the causative agent of AIDS). I understand that this testing is necessary to protect those caring for me while I am a patient of the Hospital I understand that the results of tests taken under these circumstances are confidential and do not become part of my medical record

I acknowledge and agree that the doctors participating in my care in the Hospital do not work for the Hospital. They are not employees, servants or agents of the Hospital. They are either engaged in the private practice of medicine or are licensed practitioners participating in the care of patients as part of a post-graduate medical education program. In addition to my attending doctor, other doctors who may participate in my care may include radiologists, pathologists, anesthesiologists, neonatologists, cardiologists, emergency physicians and other specialists. I acknowledge and agree that the Hospital is not responsible for the judgment or conduct of any doctor who treats or provides a professional service to me, but rather is an independent contractor who is engaged in private practice and is not an agent, servant or employee of the Hospital.

NO GUARANTEE: I acknowledge that no guarantees or warranties have been made to me with respect to treatment to be provided at this Hospital. I understand that all supplies, medical devices and other goods sold or furnished to me by the Hospital are sold or furnished on an "AS IS" basis, and Texas Health Resources disclaims any expressed or implied warranties with respect to them.

ADMISSION ACKNOWLEDGMENTS

RELEASE OF INFORMATION: I consent and authorize the Hospital to release all information contained in my financial and medical records, including diagnoses and test results, to (a) any of my treating practitioners, (b) my insurance company or health plan, (c) any other person or entity that is responsible for paying or processing for payment of any portion of my Hospital bill. (d) governmental or accrediting agencies, (e) any other health care provider to which I am transferred for care, (f) to entities utilizing this information for quality management, peer review and/or outcome analysis such as tumor registry follow-up, or (g) any other person or entity as required or allowed by state and federal law. This consent applies to all records created in the course of and relating to this hospitalization, including those related to alcohol and/or substance abuse diagnosis or treatment, mental health treatment, and/or any communicable disease, including HIV/AIDS. To provide the practitioners who will treat me during this hospitalization with access to my prior medical history, I also consent and authorize any health care provider to release to any of the practitioners who treat me during this hospitalization all information contained in my medical records from prior treatment that is relevant to my current care and treatment. If I am the patient or the patient's legal guardian, I also consent to release of billing and medical records to my primary care physician and his/her medical group. I receive, in accordance with the medical device tracking provisions of the federal Safe Medical Devices Act.

FACIAL & SCALP CONTUSIONS:

Your exam shows you have a contusion (deep bruise) around the face or scalp. Injuries around the face and head cause a lot of swelling, especially around the (eyes. This is because the blood supply to this area is so good. Usually the swelling from a contusion will be better in 2-3 days, but it takes 7-10 days for a "black eye" to clear up.

You should apply ice packs to the injured area for about 20-30 minutes every 2-3 hours until the swelling improves. Use mild pain medicine as needed. Please call or return here right away if you have:

* Severe pain or headache, unrelieved by mild pain medicine.

* Unusual sleepiness, confusion, personality changes, vomiting.

* Persistent nogebleed, double or blurged vision, or drainage from the nose or ear.

You may have a mild headache, slight dizziness, nausea, and weakness for a few days. This usually clears up with bed rest and mild pain medicine. Contact your doctor if you are concerned about facial deformity or have any difficulty with your bite, pain with chewing, or double vision.

HEAD INJURY:

You have suffered a minor head injury. You do not need to stay in the hospital any longer, but you should have someone with you to check your condition every few hours for the next 24 hours. You may go to sleep, but someone should wake you up several times during the night to make sure you know who and where you are, and that you are able to talk and move around normally. You should see your doctor or go to the emergency room at once if any of the following symptoms develop over the next few days:

 $m{ ilde{r}}$ Severe headaches not helped by pain medicine.

* Vomiting more than 2-3 times.

* Mental confusion, restlessness, or personality changes.

* Increasing weakness, sleepiness, blackouts, or seizures.

Loss of balance or trouble with movement or coordination.

* A clear or bloody drainage from the nose or ear____

You should get plenty of rest over the next 2-3 days. Avoid using aspirin or alcohol; take acetaminophen (Tylenol) as needed for headache or other pain.

Head injuries may cause a moderate headache, weakness, dizziness, nausea, and depression for up to a week or more after the injury. This post-injury state usually gets better with bed rest and mild pain medicine. If any of these symptoms last for more than a week, you will need further medical attention. Please call the emergency room or your doctor if you have any questions or concerns about your head injury.

COLD THERAPY:

Your doctor advises cold therapy for your injury. This is the best initial treatment for sprains, muscle strains, and bruises (contusions). Cold therapy helps reduce pain, swelling, bleeding into the tissues, and muscle spasm from injuries. Pain relief from cold applications is due to a "counter-irritant" effect; at first the pain increases with the cold pack, then it becomes numb.

The best way to apply cold treatments is with a plastic bag full of crushed ice, or a frozen gel pack. (Chemical cold packs are not recommended because they keep their cool for just a few minutes). Place the cold pack over the injury for 30 minutes; repeat the treatment every 2-3 hours for 2-3 days. Use a dry towel or washcloth between the cold pack and your skin to avoid injury to the skin. An elastic bandage can be applied over the ice pack to create compression; this is very effective in cooling injured tissues.

DISCHARGE INSTRUCTIONS FOR << MCGRATH, VIRGINA >>

Our doctors and staff appreciate your choosing us for your emergency medical care needs. Read these aftercare instructions carefully. Please call us if you have any questions about your medical problem. We are here to serve you.

DERMABOND TOPICAL SKIN ADHESIVE

DERMABOND is a sterile, liquid topical skin adhesive. The film will usually remain in place for 5 to 10 days, then, naturally sloughs (falls) off your skin.

CHECK WOUND APPEARANCE

Some swelling, redness and pain is common with all wounds and normally will go away as the wound heals. If swelling, redness or pain increase or if the wound feels warm to touch, contact a doctor. If the edges reopen or separate, contact a doctor. A wound treated with/DERMABOND should be monitored for signs of infection such as: erythema (redness around a wound); edema (swelling); warmth; pain; and pus. If any of these signs appear, then the wound should be evaluated and treated by a physician. BANDAGING

- If bandaged, keep the bandage dry.

- Do not apply liquid or ountment medications or other substances to the wound after closure with DERMABOND adhesive, as these substances can weaken the film closure.
- Replace the dressing daily until the adhesive film has fallen off or if it should become wet unless otherwise instructed by your physician.

- Do not scratch, rub, or pick at the DERMABOND adhesive film. may loosen the film before your wound is healed.

- Do not place tape directly over the DERMABOND adhesive film because removing the tape may also remove the film.

- Protect the wound from prolonged exposure to sunlight or tanning lamps while the film is in place.

TOPICAL MEDICATIONS

- Protect your wound from repeat injury until the skin has had sufficient time to heal.
- You may occasionally and briefly wet your wound in the shower or bath. Do not soak or scrub your wound, swim, and avoid periods of heavy perspiration until the DERMABOND adhesive has naturally fallen off. After showering or bathing, gently blot your wound dry with a soft towel. If a protective dressing is being used, apply a fresh, dry bandage, keeping tape off the DERMABOND adhesive film.
- Apply a clean, dry bandage over the wound if necessary to protect the wound.

PRECAUTIONS

- NO SWIMMING while DERMABOND is in place. Do not swim or get wet until after DERMABOND sloughs off naturally.
- Do not rub with a rough towel or other material.

If you have any questions or concerns about this product, please consult your doctor.

MRI LUMBAR SPINE

CLINICAL INFORMATION

Back pain

TECHNIQUE

T1, proton density, and T2 weighted sagitfal, and T1 and T2 weighted axial images of the lumbar spine were performed using the spin echo technique.

FINDINGS

Review of the images demonstrates a marked rotoscollosis of the lumbar spine with advanced degenerative spondylosis.

The conus meduliaris appears normal.

There does appear to be clumping of the nerve roots within the thecal sac below the tip of the conus medulials suggesting arachnoiditis.

At £1-2, there is a broad based disc bulge with associated vertebral ridging which effaces the ventral aspect of the thecal sac. There is also facet hypertrophy, particularly on the right. The spinal canal dimensions remain adequate. The right neuroforamen is only very mildly compromised.

At L2-3, there is also a broad based disc protrusion with associated vertebrat ridging and also facet hypertrophy, particularly on the right, The right neuroforamen is somewhat compromised. The left neuroforamen and spinal canal dimensions remain adequate.

At L3-4, there is prominent vertebrai ridging with a broad based disc protrusion as well as facet hypertrophy, and there is lateral subluxation. The thecal sac is considerably distorted. The spinal canal dimensions remain adequate. The foramina appear to be compromised bilaterally, particularly on the right.

At 1.4-5, there is also broad based also bulge with associated vertebral ridging and facet hypertrophy. There is also distortion of the thecal soc and compromised to the left lateral recess and left neuroforamen. The right neuroforamen is adequate.

At L5-\$1, there is prominent facet arthropathy, particularly on the left as well as a disc bulge with associated vertebral ridging. The left neuroforamen is compromised. The right neuroforamen and spinal canal remain adequate.

Note is made of prominent atrophy of the erector spince muscles.

IMPRESSION:

- Marked degenerative spondylosis with associated disc protrusions, as described above.
- There is an associated scollosis.
- Clumping of the nerve root sleeves in the caudal aspect of the thecal soc suggests arachnolditis
- 4. There is compremise of the left neuroforamen and lateral recess at L4-5, compremise of the L5-51 neuroforamen on the left, and of the L2-3 and L3-4 neuroforaming on the light

If you have circulation problems or a skin disease, you should not use ice packs because of the increased risk of causing frostbite injury.

TETANUS AND DIPHTHERIA PREVENTION:

You were given a shot today to prevent tetanus infection. Your booster shot included both tetanus and diphtheria toxoid. You will be protected from both of these infections for at least 5 years. Remember this date so you will not be given unnecessary tetanus shots in the future. Your booster may cause some swelling, pain, and tenderness in your arm. This is normal. It does not mean that you are allergic to tetanus shots. To relieve the pain from your booster test your arm, apply ice packs, and take mild pain medicine.

ADDITIONAL INSTRUCTIONS:

TAKE MEDICAIOTNS AS DIRECTED

PRESCRIPTIONS:

Fill all the prescriptions ordered by your doctor and take them as directed.

- * If you have been given an antibiotic, be sure to take all of it.
- * Keep your drugs out of the reach of children, in a cool, dry, dark place.
- * Don't give your medicine to other people or use it for other illnesses.

._______.

* Call us right away if you have problems with drug side-effects or allergy. Bring your medicines with you any time you go to emergency for treatment.

CEPHALOSPORIN ANTIBIOTICS:

You have been prescribed a cephalosporin drug. Examples of these antibictics are: Ceclor, Ceftin, Duricef, Keflex, Suprax, Zinacef. These are given for infections of the skin, ear, respiratory tract, and urinary system. They are usually well-tolerated, but if they upset your stomach, take them with food. If you are allergic to penicillin, there is a small risk you will have a similar reaction to cephalosporin antibiotics. Be sure to take antibiotics until all the medicine is gone unless you develop severe side effects.

Please note that birth control pills may not work as well as normal when you are taking an antibiotic. The most common side effects of these drugs are: diarrhea, indigestion, stomach cramps, and vomiting; women can get yeast infections with antibiotic treatment. Please stop taking your medicine and call your doctor right away if you have severe side effects, or any symptoms of drug allergy: hives, itching, rash, fever, or breathing problems. Cephalosporins have not been shown to be completely safe in pregnancy.
