Dear Judge S.P. Sonderby:

I am writing to you and the Bankruptcy Court to amend my Proof of Claim form for back wages owed to me by K Mart Corporation from June 11, 1998 through June 11, 2002 (Please see attached forms).

I have worked for K Mart Corporation for the past 30 years. During my employment, I have been subjected to many, many undeserved hardships and tremendous stresses in order to keep my job with this company. I endured it all because I was a single parent with a child to raise and obligations to meet.

As I stated in my previous letter to you, dated July 25, 2002, I am a very, very hard working and honest person of high moral principles. By nature I am a very compassionate person who not only desires to succeed personally, but desires to help my employer and community succeed and prosper as well. For 30 years I have given my very best to K Mart. I have worked long and hard. I have performed my job over and above the call of duty. My conduct has been exemplary and above reproach. And, had I not been unduly hindered, strictly for reasons of my gender and ethnic origin, I know that I could have achieved my

full potential with this company becoming not only an assistant manager but, potentially a store manager, district manager or even a regional manager. How do I know this? Because in addition to the qualities mentioned above I am smart and I learn quickly. I also have the drive, the motivation, the ambition, the perseverance and the talent to succeed. Had K'Mart given me the training and the promotion ordered by the court, I know there is no limits to what I may have accomplished during my lengthy time of service with this company.

For this reason, I am asking you to enforce the judgement of \$75,866.00 that the court awarded me for back wages and reimbursement of attorney fees. I am also asking for you to include the time period after June 11, 2002 up to the date that the award is paid, plus interest on the award for the same period.

I am also amending my request to include compensation for losses in earnings that would have resulted from higher contributions to my 401K and retirement benefits that would have come from the increased wages and earning capacity; plus the interest resulting from these increased contributions. I invest 8% of my salary yearly.

In addition I am requesting that K-Mart be made to compensate me for all lost earnings from potential promotions that reasonably would have resulted had I been given equitable and fair consideration based on job performance. I am also requesting that I be awarded my full K-Mart retirement in advance and without penalty.

I am asking you to award me \$15,000,000 (fifteen million dollars) compensation for 30 long, laborious years of duress, stress, and extreme mental anguish that this company's actions have exacted from me.

Finally, I ask that you award me \$25,000,000. (twenty five million dollars) in punitive damages for K-Mart Corporation's deliberate, wilful, flagrant disregard for the law by their blatant, undue, lengthy lapse in complying with the court order. By their non-compliance with a court order this company has set itself above the law, and must not be allowed to get away with doing so. K-Mart Corporation must be compelled to comply to the full extent of the law.

Judge Sonderby, please send this corporation the message that it is not above the law and can not continue to willfully violate the law without being subjected to the full consequences of the law. Please send a message, loud and clear, not only to K-Mart

but to countless employees everywhere, like myself, that there is legal recourse if they have the courage, the patience, the endurance, and the integrity to pursue it. The legal system in our country will set things right and in the end justice will prevail.

The reason that I am writing to you myself on my own behalf is because the attorney, Phillip Barton, who I had to pay \$7,500 (seventy five hundred hard-earned dollars) to represent me was negligent in doing so. Mr. Barton called me on my job at 4:30 p.m. on July 30, 2002, to inform me that the deadline to file my proof of claim form was 4:00 p.m. the following day (July 31, 2002). Needless to say, one day's notice is certainly not sufficient enough time to have had his office prepare the form. In order to meet the deadline I had to complete the paperwork myself and send it overnight through the postal service. His call to me at work surprised me because of the short notice. Because my paperwork was at home I asked him to fax all of the necessary papers to me but he only faxed a copy of the claim form, the copy of the judgement, and the sheet with the workup of the back wages. I do not feel that his actions were helpful at all. At the close of his conversation to me he said, "The court is going to laugh at you for asking for such a small amount."

Good luck." Because of this I decided to do the amendment myself. I do not appreciate his negative comments nor his lack of help in filing these forms especially in view of the fact that I paid him the full amount of his fee up front, which he required. His actions seem to me, at best, inexcusable and, at worst, a dereliction of duty to me and a deliberate hindrance to my completing this processing of paperwork.

In closing, I thank you so much for your every consideration on my behalf. As I will be eligible for full retirement on September 14, 2007 please expedite this matter for me.

Sincerely,
Beniah Johnson

Please see the attached profit sharing and retirement projected earnings statement. I am asking the court to award me this income in advance without penalty up to age 77.5, which is the average life span of American women.

HOW YOUR 2000 PROFIT SHARING AWARD WAS DETERMINED

Kmart follows three steps to determine how the money our customers spend becomes your profit sharing award

Step 1: Determine Kmart Profits

Kmart calculates how much money we made over the last 12 months (as of January 31) using this simple formula

$$\text{Sales} - \text{Costs} = \text{Profits}$$

Here's how it works for 2000

Sales of merchandise	\$ 37.028 billion
Costs of merchandise and other expenses	<u>-36.704 billion</u>
Profits before taxes	\$ 324 million

Every year since 1995, Kmart has awarded a minimum of \$30 million in profit sharing to associates. When Kmart's pretax profits are more than \$750 million, an extra 10% of the profits above \$750 million is shared with associates. When profits are more than \$975 million, then 20% of profits above \$975 million is shared.

Determine Total Profit Sharing Award

Kmart's profit sharing allows you to share in the company's success by awarding more money when profits are higher (see years 1998 and 1999 in the bar graph below). However, even in less profitable years - like 2000 - Kmart awards a minimum of \$30 million to associates

Kmart Pretax Profits

Step 3: Calculate Your Share

Your share of the total profit sharing amount depends on your age on December 31, 2000 and your 2000 pay. As you get older, you get more because you have less time to grow the money through investing before you retire.

If you were...	Your award is this percentage of your 2000 pay...
24 or younger	0.221%
25 - 29	0.441%
30 - 34	0.662%
35 - 39	0.883%
40 - 44	1.104%
45 - 49	1.324%
50 - 54	1.545%
55 or older	1.766%

Playing to Win

It's no secret that Kmart has a vision to be the world's #1 retailer. That means being #1 in customer satisfaction. It's also no secret that we have a long way to go to become #1. To get there, we are making major investments in our technology, our processes, and our workforce. But it will take more than money - we need all of our associates working together to improve our customer service. By playing to win together, we can transform Kmart into a more enjoyable and profitable place to work!

It's Up to You

Your 2000 profit sharing award has been invested in the investment option(s) of your choice. If you never made a choice, your award was invested in the Conservative Portfolio. Now would be a good time to evaluate your savings goals and decide if you wish to make any changes. There are three possible changes for you to consider:

- 1 You can change your investment option(s) for future profit sharing awards and associate contributions.
- 2 You can reallocate (transfer) your existing profit sharing account balance, as well as your associate contributions, among the available investment options.
- 3 You can change your savings percentage or contribution type (before-tax or after-tax).

You can make these transactions by calling 1-800-33KMART or by visiting www.prudential.com/online/treatment and following the instructions provided by the Benefits Service Center. Please have your Social Security number and PIN ready.

Important Information

About Your Retirement Income Projections
 Your personal estimates on this statement were prepared by making a number of assumptions, including the assumption that your pay remains the same in the future. It is important for you to understand the following assumptions and how they affect your retirement income estimates. Please read the following information carefully.

About Your Social Security Estimate
 The estimate of your Social Security benefit does not take into account any spouse's benefit. It is based on your 2000 Kmart earnings and assumes you do not begin to receive your benefit until you reach age 65.

The Social Security Administration mails an annual statement to every worker age 25 or older. It provides a record of your Social Security-covered earnings and a more accurate projection of your potential Social Security benefit when you retire.

About Your Profit Sharing and Savings Plan Estimates

1. The estimates of the possible retirement income from your profit sharing awards and your RSP account are based on your December 31, 2000 balance and assume that you manage your choice of investment options so that your retirement savings earn 8%* annually.

2. To estimate the monthly retirement income amount the RSP could provide, we did the following:
 a. We estimated your age 65 account balance after first assuming that your annual pay and Kmart's total profit sharing amount will stay at the 2000 amount each year until you reach age 65 (your award could change as described in this statement). We also assumed that you continue to save at your current rate until you reach age 65 and that the company match continues at 50% on the first 6% of pay you contribute.

b. The age 65 estimated account balance arrived at in step 2a is then used to determine the amount you could withdraw in equal monthly amounts over the 20 years after you reach age 65.

3. Your estimates assume that you will have no future withdrawals from your savings. If you make any withdrawals, you will have less money available in your RSP account at retirement.

4. Your profit sharing award vests after you have completed five years of service. (Vesting is your ownership of a benefit, usually earned over time.) Your vested profit sharing award may be withdrawn only after your employment ends.

If You Are Age 64 Plus

If you were age 64 or older on December 31, 2000, your 2000 income projections are based on your current benefits and RSP balance as of December 31, 2000.

Please direct any concerns you have regarding this statement to the Benefits Service Center by calling 1-800-33KMART.

The benefits mentioned here are governed by legal plan documents. The legal plan documents will be used in resolving differences, if any.

*This hypothetical investment is based on an assumed interest rate of 8%, compounded annually. This assumed rate of interest is for illustrative purposes only and is not intended to represent performance of any specific investment, which may fluctuate.

A Message from Chuck Conway

As we all know, 2000 was an extraordinary year for Kmart. Since coming on board last May, it's been clear to me that this company is made up of associates who have a passion for delivering the world-class service needed to make this company the #1 retailer. Working with daily intensity, we've spent the last nine months building and executing new strategies to satisfy our shoppers. We're making big investments in the company's future - such as adding new registers with point-of-service scanners, staffing the stores to better meet customer needs, and improving our supply chain.

These improvements will help us to serve our customers better, increase our sales and profits, and make our jobs more enjoyable. These investments have come with a price - over \$2 billion - which reduced our profits and your profit sharing for 2000. However, I'm confident that our efforts to improve Kmart will result in many paychecks for all associates in the future. Thanks for all of your hard work in 2000. I believe that if we work together, we will launch Kmart to a level of performance that honors every employee's capabilities!
