

**7. Documents:** Attached are redacted copies of any documents that support the claim, such as promissory notes, purchase orders, invoices, itemized statements of running accounts, contracts, judgments, mortgages, security agreements, or, in the case of a claim based on an open-end or revolving consumer credit agreement, a statement providing the information required by FRBP 3001(c)(3)(A). If the claim is secured, box 4 has been completed, and redacted copies of documents providing evidence of perfection of a security interest are attached. If the claim is secured by the debtor's principal residence, the Mortgage Proof of Claim Attachment is being filed with this claim. (See instruction #7, and the definition of "redacted".)

DO NOT SEND ORIGINAL DOCUMENTS. ATTACHED DOCUMENTS MAY BE DESTROYED AFTER SCANNING.

If the documents are not available, please explain:

**8. Signature:** (See instruction #8)

Check the appropriate box.

☒ I am the creditor. ☐ I am the creditor's authorized agent. ☐ I am the trustee, or the debtor, or their authorized agent. ☐ I am a guarantor, surety, indorser, or other codebtor. (See Bankruptcy Rule 3005.) (See Bankruptcy Rule 3004.)

I declare under penalty of perjury that the information provided in this claim is true and correct to the best of my knowledge, information, and reasonable belief.

Print Name: Randy Ray

Title: President

Company: Alabama Electric Motor Services, LLC

Address and telephone number (if different from notice address above):

TMC Electric Motor Services

(Signature)

(Date)

Penalty for presenting fraudulent claim: Fine of up to \$500,000 or imprisonment for up to 5 years, or both. 18 U.S.C. §§ 152 and 3571.

**INSTRUCTIONS FOR PROOF OF CLAIM FORM**

The instructions and definitions below are general explanations of the law. In certain circumstances, such as bankruptcy cases not filed voluntarily by the debtor, exceptions to these general rules may apply.

**Items to be completed in Proof of Claim form**

**Court, Name of Debtor, and Case Number:**

Fill in the federal judicial district in which the bankruptcy case was filed (for example, Central District of California), the debtor's full name, and the case number. If the creditor received a notice of the case from the bankruptcy court, all of this information is at the top of the notice.

**Creditor's Name and Address:**

Fill in the name of the person or entity asserting a claim and the name and address of the person who should receive notices issued during the bankruptcy case. A separate space is provided for the payment address if it differs from the notice address. The creditor has a continuing obligation to keep the court informed of its current address. See Federal Rule of Bankruptcy Procedure (FRBP) 2002(g).

**1. Amount of Claim as of Date Case Filed:**

State the total amount owed to the creditor on the date of the bankruptcy filing. Follow the instructions concerning whether to complete items 4 and 5. Check the box if interest or other charges are included in the claim.

**2. Basis for Claim:**

State the type of debt or how it was incurred. Examples include goods sold, money loaned, services performed, personal injury/wrongful death, car loan, mortgage note, and credit card. If the claim is based on delivering health care goods or services, limit the disclosure of the goods or services so as to avoid embarrassment or the disclosure of confidential health care information. You may be required to provide additional disclosure if an interested party objects to the claim.

**3. Last Four Digits of Any Number by Which Creditor Identifies Debtor:**

State only the last four digits of the debtor's account or other number used by the creditor to identify the debtor.

**3a. Debtor May Have Scheduled Account As:**

Report a change in the creditor's name, a transferred claim, or any other information that clarifies a difference between this proof of claim and the claim as scheduled by the debtor.

**3b. Uniform Claim Identifier:**

If you use a uniform claim identifier, you may report it here. A uniform claim identifier is an optional 24-character identifier that certain large creditors use to facilitate electronic payment in chapter 13 cases.

**4. Secured Claim:**

Check whether the claim is fully or partially secured. Skip this section if the

claim is entirely unsecured. (See Definitions.) If the claim is secured, check the box for the nature and value of property that secures the claim, attach copies of lien documentation, and state, as of the date of the bankruptcy filing, the annual interest rate (and whether it is fixed or variable), and the amount past due on the claim.

**5. Amount of Claim Entitled to Priority Under 11 U.S.C. § 507 (a).**

If any portion of the claim falls into any category shown, check the appropriate box(es) and state the amount entitled to priority. (See Definitions.) A claim may be partly priority and partly non-priority. For example, in some of the categories, the law limits the amount entitled to priority.

**6. Credits:**

An authorized signature on this proof of claim serves as an acknowledgment that when calculating the amount of the claim, the creditor gave the debtor credit for any payments received toward the debt.

**7. Documents:**

Attach redacted copies of any documents that show the debt exists and a lien secures the debt. You must also attach copies of documents that evidence perfection of any security interest and documents required by FRBP 3001(c) for claims based on an open-end or revolving consumer credit agreement or secured by a security interest in the debtor's principal residence. You may also attach a summary in addition to the documents themselves. FRBP 3001(c) and (d). If the claim is based on delivering health care goods or services, limit disclosing confidential health care information. Do not send original documents, as attachments may be destroyed after scanning.

**8. Date and Signature:**

The individual completing this proof of claim must sign and date it. FRBP 9011. If the claim is filed electronically, FRBP 5005(a)(2) authorizes courts to establish local rules specifying what constitutes a signature. If you sign this form, you declare under penalty of perjury that the information provided is true and correct to the best of your knowledge, information, and reasonable belief. Your signature is also a certification that the claim meets the requirements of FRBP 9011(b). Whether the claim is filed electronically or in person, if your name is on the signature line, you are responsible for the declaration. Print the name and title, if any, of the creditor or other person authorized to file this claim. State the filer's address and telephone number if it differs from the address given on the top of the form for purposes of receiving notices. If the claim is filed by an authorized agent, provide both the name of the individual filing the claim and the name of the agent. If the authorized agent is a servicer, identify the corporate servicer as the company. Criminal penalties apply for making a false statement on a proof of claim.

## DEFINITIONS

**Debtor**

A debtor is the person, corporation, or other entity that has filed a bankruptcy case.

**Creditor**

A creditor is a person, corporation, or other entity to whom debtor owes a debt that was incurred before the date of the bankruptcy filing. See 11 U.S.C. §101 (10).

**Claim**

A claim is the creditor's right to receive payment for a debt owed by the debtor on the date of the bankruptcy filing. See 11 U.S.C. §101 (5). A claim may be secured or unsecured.

**Proof of Claim**

A proof of claim is a form used by the creditor to indicate the amount of the debt owed by the debtor on the date of the bankruptcy filing. The creditor must file the form with the clerk of the same bankruptcy court in which the bankruptcy case was filed.

**Secured Claim Under 11 U.S.C. § 506 (a)**

A secured claim is one backed by a lien on property of the debtor. The claim is secured so long as the creditor has the right to be paid from the property prior to other creditors. The amount of the secured claim cannot exceed the value of the property. Any amount owed to the creditor in excess of the value of the property is an unsecured claim. Examples of liens on property include a mortgage on real estate or a security interest in a car. A lien may be voluntarily granted by a debtor or may be obtained through a court proceeding. In some states, a court judgment is a lien.

A claim also may be secured if the creditor owes the debtor money (has a right to setoff).

**Unsecured Claim**

An unsecured claim is one that does not meet the requirements of a secured claim. A claim may be partly unsecured if the amount of the claim exceeds the value of the property on which the creditor has a lien.

**Claim Entitled to Priority Under 11 U.S.C. § 507 (a)**

Priority claims are certain categories of unsecured claims that are paid from the available money or property in a bankruptcy case before other unsecured claims.

**Redacted**

A document has been redacted when the person filing it has masked, edited out, or otherwise deleted, certain information. A creditor must show only the last four digits of any social-security, individual's tax-identification, or financial-account number, only the initials of a minor's name, and only the year of any person's date of birth. If the claim is based on the delivery of health care goods or services, limit the disclosure of the goods or services so as to avoid embarrassment or the disclosure of confidential health care information.

**Evidence of Perfection**

Evidence of perfection may include a mortgage, lien, certificate of title, financing statement, or other document showing that the lien has been filed or recorded.

## INFORMATION

**Acknowledgment of Filing of Claim**

To receive acknowledgment of your filing, you may either enclose a stamped self-addressed envelope and a copy of this proof of claim or you may access the court's PACER system ([www.pacer.psc.uscourts.gov](http://www.pacer.psc.uscourts.gov)) for a small fee to view your filed proof of claim.

**Offers to Purchase a Claim**

Certain entities are in the business of purchasing claims for an amount less than the face value of the claims. One or more of these entities may contact the creditor and offer to purchase the claim. Some of the written communications from these entities may easily be confused with official court documentation or communications from the debtor. These entities do not represent the bankruptcy court or the debtor. The creditor has no obligation to sell its claim. However, if the creditor decides to sell its claim, any transfer of such claim is subject to FRBP 3001(c), any applicable provisions of the Bankruptcy Code (11 U.S.C. § 101 *et seq.*), and any applicable orders of the bankruptcy court.

**SUMMARY OF CLAIM OF ALABAMA ELECTRIC MOTOR SERVICES, LLC d/b/a  
TMC ELECTRIC MOTOR SERVICES ("TMC")<sup>1</sup>**

**I. ITEMIZATION OF CLAIMED AMOUNT**

TMC has filed a total claim of \$172,979.00. This claim arises out of unpaid goods and services provided by TMC to the Debtor which, as of October 27, 2014 (the "Petition Date"), totaled \$136,536.00 and includes a priority claim under 11 U.S.C. §§ 503(b)(9) and 507(a)(2) in the amount of \$2,800.00 (See Ex. C, D). TMC also includes in its claim the sum of \$36,443.00 arising out of unpaid goods and/or services provided by TMC to the Debtor on or after the Petition Date (the "Admin Claim")(See Ex B), which is afforded priority treatment under 11 U.S.C. §§ 503(b)(1) and 507(a)(2). While TMC intends to seek priority treatment of some or all of its claim, including the Admin Claim, by separate motion, TMC includes these amounts in its proof of claim out of an abundance of caution.

**SUPPORTING DOCUMENTATION**

- Master Services Agreement (attached hereto as Exhibit A)
- Invoices of Amount of Claim Entitled to Priority Pursuant to 11 U.S.C. § 503(b)(1)(A) (attached hereto as Exhibit B)
- Invoices of Amount of Claim Entitled to Priority Pursuant to 11 U.S.C. § 503(b)(9) (attached hereto as Exhibit C)
- Remaining Invoices for Amount of Claim as of the Petition Date (attached hereto as Exhibit D)

---

<sup>1</sup> TMC hereby reserves its right to amend and supplement its proof of claim and summary as it deems necessary, as well as request court approval of the payment of some or all of its claim as administrative expenses, or otherwise.

**EXHIBIT A**

**(Master Services Agreement)**

December 7, 2014

TMC Electric Motor Services  
1917 Brookdale Drive West  
Mobile, AL 36618

Please print two copies of Master Service Agreement 1379-14 between Mississippi Phosphates Corp. and TMC Electric Motor Services. ~~As soon as possible, please sign both copies on Page 17 and return them to me.~~ I will then have C. E. McCraw, our Chief Operating Officer sign both copies. I will then return one executed copy to you.

We will also need an insurance Certificate of Liability in the amount of \$2,000,000. You may send it back with this agreement or FAX it to 228-712-3310.

Please include your rate sheet with the agreement.

Also attached is a Safety Review Form that is necessary to meet the PSM federal regulations. Please return this form with the agreement, also OSHA Safety Card with site specific and TWIC Card will be required.

Included is a Scope of Work company policy cover sheet for your review.

If you have any questions, please give me a call at 228-712-3303.

Sincerely,

Phyllis Dufrene  
Executive Secretary

**MISSISSIPPI PHOSPHATES CORPORATION**

**MASTER SERVICES AGREEMENT**

MPC Contract No.: 1379-14

This Master Services Agreement (this "Agreement") is made effective the 7th day of January, 2014, by and between MISSISSIPPI PHOSPHATES CORPORATION, as "Owner," and TMC ELECTRIC MOTOR SERVICES, as "Contractor" as follows:

WHEREAS Owner owns and operates a production facility in Pascagoula, Mississippi for the manufacture of diammonium phosphate fertilizer (the "Facility");

WHEREAS from time to time during the course of operations of the Facility fertilizer production and/or sales is disrupted or impacted due to breakdown of machinery, equipment and/or fixtures or to the requirement of performing maintenance of or work on the same or any parts, components, products or things related thereto which necessitates construction, repairs, maintenance and/or other work by qualified personnel with specialized training;

WHEREAS time is of the essence in contracting and performing such construction, repairs, maintenance and/or work in order to minimize the disruption of or impact to Owner's fertilizer production and sales;

WHEREAS Owner has determined that valuable time can be saved by entering into a master services agreement with one or more qualified contractors setting forth the general terms and conditions under which Owner may hereafter engage such contractor to perform construction, repairs, maintenance and/or other work;

WHEREAS Contractor is in the business of providing qualified personnel with specialized training in order for him/her to perform his/her work to the highest quality;

WHEREAS Owner contemplates engaging the services of Contractor, and Contractor contemplates accepting such engagements, from time to time to perform construction, repair, maintenance and/or other work at the Facility; and

WHEREAS Owner and Contractor desire to memorialize the general terms and conditions under which Owner and Contractor have agreed that future work to be performed by Contractor at the Facility will be governed.

NOW, THEREFORE, for and in consideration of duly valid and material consideration, the receipt and sufficiency of which is hereby acknowledged by Contractor, and in further consideration of the mutual covenants set forth below, Owner and Contractor agree as follows:

## ARTICLE I: DEFINITIONS

- 1.1. "Owner" means Mississippi Phosphates Corporation.
- 1.2. "Contractor" means the party identified as "Contractor" in the opening paragraph of this Agreement.
- 1.3. "Proposal" means a writing submitted by Contractor to Owner, in response to Owner's request for a proposal to perform a specific work project, setting forth either a proposed price and work completion schedule or a proposal for work on a time and materials basis. Any Proposal stated as a fixed price shall break the price down into reasonable work classifications. Any Proposal for time and materials work shall be based on the Contractor's rates and costs schedule as required pursuant to paragraph 4.5.
- 1.4. "Purchase Order" means a document denominated as such issued by Owner to Contractor approving Contractor's Proposal to perform a specific work project, and/or setting forth any additional terms regarding the specific work project, for example, a maximum number of days to complete the specific work project. If any such additional terms are included, then Contractor's commencement or continuation of work shall be deemed acceptance of such additional terms.
- 1.5. "Contract Price" means the price specified on the Proposal submitted by Contractor as approved in the Purchase Order issued by Owner for any specific work project to be performed by Contractor, subject to modification in accordance with paragraph 3.4, and/or, for time and materials work, the total price payable to Contractor based upon the rates and cost schedules as required pursuant to paragraph 4.5. For Contracts in which the Contract Price is stated as a fixed price, it shall be deemed to include all applicable taxes.
- 1.6. The "Contract Documents" relating to any specific work project to be performed by Contractor at the Facility shall mean the following documents: this Agreement, Contractor's Proposal for the applicable work, if any, Owner's Purchase Order for the applicable work, if any, Contractor's Rate Schedule (if the Proposal is based on time and materials) and any additional written Drawings, Specifications and/or Schedules approved by Owner and Contractor relating to the applicable work. The Contract Documents for each specific future work project shall constitute the entire agreement between Owner and Contractor (herein referred to as the "Contract") for that specific work project and shall supersede any and all previous negotiations, representations, understandings and agreements, whether written or oral, between them relating to the specific work project. The Contract Documents are intended to complement each other. It is the intent of the Contract Documents to describe a functionally complete project, or part thereof, to be constructed in accordance therewith. Any work, materials or equipment that may reasonably be inferred from the Contract Documents as being required to produce the intended result other than those furnished by Owner will be supplied by Contractor whether or not specifically called for. The Drawings, if any, depict details finished and in place, unless otherwise expressly stated. In the event that any provisions of the Proposal, Purchase Order, Rate Schedule, Drawings, Specifications or Schedules shall conflict with any term of this Agreement or purport to alter or amend any term of this Agreement, then the terms of this Agreement shall prevail unless both Owner and Contractor shall both sign a written statement expressly stating that such provision shall prevail over the terms of this Agreement with respect

to the applicable work project. The Contract shall not be construed to create a contractual relationship of any kind (a) between the Owner and any subcontractor of Contractor or (b) between any persons or entities other than Owner and Contractor.

## **ARTICLE II: AGREEMENTS TO PERFORM FUTURE WORK PROJECTS**

2.1 From time to time Owner may request a Proposal from Contractor to perform a work project. In such event, the parties contemplate that Contractor will submit in writing to Owner a Proposal including both a price for each item of work and a schedule for completing the work. In the absence of Owner's written approval, Contractor agrees not to withdraw or modify any Proposal for a period of 30 days after the date the Proposal is submitted to Owner. If Owner chooses to accept Contractor's Proposal, then such acceptance will be evidenced by a Purchase Order issued by Owner to Contractor, the issuance of which will create a binding Contract governed by the terms of this Agreement between Owner and Contractor with respect to such work project, provided that if Owner's Purchase Order includes any additional terms then Contractor's commencement or continuation of performance shall be deemed acceptance of the additional terms.

From time to time Owner may orally request Contractor to perform a work project on a time and materials basis without the necessity of Contractor submitting a Proposal. In such event, Contractor's commencement of performance will create a binding Contract on a time and materials basis with respect to such work project governed by the terms of this Agreement and Contractor's Rate Schedule; provided that Owner may, at its option, issue a Purchase Order for such work including additional terms, which Contractor shall be deemed to have accepted by commencement or continuation of performance of the work.

2.2. Contractor shall submit with its Proposal, the name and address of any subcontractor(s) which it plans to utilize to perform work under the Contract. Owner shall have the right to reject the utilization of any subcontractor(s).

2.3. A resume' of the Contractor's superintendent and other key salaried supervisory personnel to be assigned to the work hereunder shall be submitted with the Proposal. Owner reserves the right to approve or disapprove the utilization of personnel which Owner, in its sole discretion, determines to be unsuitable for satisfactory performance under the Contract.

2.4. Owner may, in its discretion, require Contractor to furnish performance and/or payment bonds. The cost of such bonds shall be in addition to the Contract Price, and Contractor shall be reimbursed by Owner for the actual cost of the bonds. If required, bonds will be equal to 100 percent of the Contract Price.

2.5 Contractor certifies that prior to the signing of this Agreement and along with the submission of any Proposal, Contractor has provided the following information for the current year as well as the previous two years: (1) its OSHA Form 300 and Form 300-A; (2) copies of any and all federal or state OSHA citations, as well as documentation concerning any additional explanatory material or affirmative defenses; and (3) the identification of and documents concerning any and all pending investigations by federal or state occupational safety and health agencies.

### ARTICLE III: GENERAL CONDITIONS

3.1. Contractor's General Responsibilities. Contractor agrees to use its best efforts on behalf of Owner's interest; to perform all work in strict conformity with the Contract Documents; to perform all work in the best and most workmanlike manner, using the best manner of performance and the materials of the best quality; to use only work supervisors exhibiting the highest standards; to complete the work no later than the completion date specified on the Proposal or Purchase Order; and to pay promptly, when due, all claims for services, labor and material relating to work. Contractor has been fully informed of the end result required by Owner for the work covered by the Contract, and Contractor agrees that its work will be consistent with producing the end result sought by Owner.

Prior to performing any work on the premises of MPC, Independent Contractor shall cause a complete, detailed and thorough inspection to be performed by its representatives throughout the area in which Independent Contractor's work will be performed. Independent Contractor shall determine for itself whether the premises in which its work will be performed are safe for the work to be performed. In making this determination, Independent Contractor does hereby agree to fully and completely indemnify and defend MPC and its officers, employees, and agents from and against any and all claims, costs, or damages, including attorneys' fees, arising from personal injury or property damage incurred by any employee, agent, or representative of Independent Contractor while on the premises of MPC.

3.2. Certificate of Responsibility. If a work project under this Agreement is in excess of One Hundred Thousand Dollars (\$100,000.00), the Contractor represents and warrants that Contractor has a current Certificate of Responsibility number, issued by the Mississippi State Board of Contractors. The Contractor must hold the kind of Certificate of Responsibility appropriate for the work to be performed.

3.3. Payments.

(a) Payment on Completion (Fixed-Price Contracts with Schedule up to 30 days). Contractor's representative and Owner's general manager, or his designee, shall, promptly after conclusion of the work, inspect the work together. When the work is acceptable to Owner, in its sole discretion, Owner shall pay the Contract Price within thirty (30) calendar days after receipt of the Contractor's request for payment documented to Owner's satisfaction; provided, however, that final payment may be withheld beyond said thirty (30) day period (i) pending compliance by Contractor with the lien requirements of paragraph 3.34 and (ii) if Contractor has not complied fully with all of its obligations under the Contract. Said cause for withholding final payments shall be promptly remedied by Contractor at its own expense upon demand by Owner, and Owner shall make final payment on or before thirty (30) calendar days after the date upon which such remedy has been effected and accepted by Owner in writing. If said cause is not promptly remedied by Contractor, Owner may have same remedied in such manner as it deems advisable. Owner may apply the Contract Price, and any and all sums due from Owner to Contractor under other Contracts, against any such amount due by Contractor. For any breach, Owner is entitled to any rights and remedies provided for by law or equity. Acceptance of the work hereunder is for payment purposes only.

(b) **Progress Payments (Fixed-Price Contracts with Schedule more than 30 days).** Each month, Contractor shall submit to Owner in accordance with paragraph 3.31, a certified statement showing in detail the work accomplished during the preceding month, and within thirty (30) calendar days after receipt thereof, Owner shall pay to Contractor, without duplication, 90 percent of the face amount of said statement; provided, however, that the total amount of such progress payments shall not exceed 90 percent of the contract price. Owner may withhold some or all of this payment if Contractor's work is not acceptable to Owner or if Contractor has not or is not complying with any of his contractual obligations or if Owner disagrees with Contractor's stated percentage of completion. After completion of all work, Contractor shall submit to Owner a final statement and Owner shall make a final payment on or before thirty (30) calendar days thereafter if (i) the work is acceptable to Owner and (ii) Contractor has complied with the lien requirements of paragraph 3.34; provided, however, that final payment may be withheld beyond said thirty (30) day period if Contractor has not complied fully with all of its obligations under the Contract. Said cause for withholding final payment shall be remedied promptly by Contractor at its own expense upon demand by Owner, and Owner shall make final payment on or before thirty (30) calendar days after the date upon which such remedy has been effected and accepted by Owner in writing. If said cause is not promptly remedied by Contractor, Owner may have same remedied in such manner as it deems advisable. Owner may apply the Contract Price, and any and all sums due from Owner to Contractor under other Contracts, against any such amount due by Contractor. For any breach, Owner is entitled to any rights and remedies provided for by law or equity. Acceptance of the work hereunder is for payment purposes only.

(c) **Payment for Time and Materials Contract.** Each week during the progress of the work, Contractor shall submit to Owner an itemized invoice in accordance with the provisions of paragraph 3.31, for the costs, charges and expenses incurred in the performance of the work hereunder. Said invoice shall be accompanied by a schedule of labor charges, copies of invoices for materials and equipment, and such other supporting documents as Owner may require. Within thirty (30) calendar days of receipt of all of Contractor's invoices for a given month, Owner shall pay the face amount of said invoices, subject to (c)(i) and (ii) below. After completion of all work, Contractor shall submit to Owner a final statement and Owner shall make a final payment on or before thirty (30) calendar days thereafter if (i) the work is acceptable to Owner and (ii) Contractor has complied with the lien requirements of paragraph 3.34; provided, however, that final payment may be withheld beyond said thirty (30) day period if Contractor has not complied fully with all of its obligations under the Contract. Said cause for withholding final payment shall be remedied promptly upon demand by Owner, and Owner shall make final payment on or before thirty (30) calendar days after the date upon which such remedy has been effected and accepted by Owner in writing. If said cause is not promptly remedied by Contractor, Owner may have same remedied in such manner as it deems advisable. Owner may apply the Contract Price, and any and all sums due from Owner to Contractor under other Contracts, against any such amount due by Contractor. For any breach, Owner is entitled to any rights and remedies provided for by law or equity. Acceptance of the work hereunder is for payment purposes.

3.4. Changes in the Work. Owner may at any time or times, by written order, require alterations in, additions to, or omissions from, the work. Change orders must be countersigned by Owner and Contractor before commencement of the changed work, and no claim by Contractor for increases in the Contract Price shall be valid except as specifically provided by such written approvals. In absence of prior written approval, Contractor shall proceed at its own risk. On behalf of Owner, only authorized personnel may execute change orders. If any change causes an increase or decrease in the cost of performance, or any extension or reduction of the completion date, Contractor and Owner's general manager shall agree in writing upon an equitable adjustment in the price or completion date, or both.

3.5. Termination. Owner may, by written notice as provided in paragraph 3.30, terminate any Contract, in whole or in part, whenever Owner deems such termination to be for its best interest. Upon receipt of notice of termination, Contractor shall: (a) terminate all work; (b) place no further orders; (c) assign to Owner, to the extent directed by Owner, all of Contractor's rights, title and interests under orders theretofore placed hereunder; and (d) transfer title and deliver to owner, as directed by Owner, materials, plans, drawings, and specifications produced, prepared or acquired for the work.

In the event of such termination, Owner shall pay to Contractor, and Contractor shall accept as full compensation for work performed, such percentage of the Contract Price as the scope of work actually performed by Contractor prior to receipt of notice of termination bears to the entire scope of work contemplated by the Contract, less any and all previous payments made, and Owner shall thereupon be released from further obligation to make payments under the Contract.

Either party may terminate this Agreement at any time by written notice as provided in paragraph 3.30. However, notwithstanding such termination of this Agreement, this Agreement shall continue in full force and effect with respect to all Contracts formed prior to the receipt of such notice of termination.

3.6. Insurance. Contractor shall, and shall cause subcontractor(s) of every tier to, maintain at all times during the period of this Agreement, and for such additional periods stated below, as a minimum and at its sole cost and expense, insurance complying with provisions set forth below:

(a) **Workers' Compensation and Employer's Liability Insurance** covering all statutorily or voluntarily employed persons in accordance with all applicable local, state and/or federal laws or regulations. Employer's Liability limits shall not be less than \$1,000,000 per each accident for bodily injury by accident or \$1,000,000 per each employee for bodily injury by disease from a carrier with an AM Best financial strength rating of AX or higher.

(b) **Commercial General Liability ("CGL") Insurance** with a limit of not less than \$1,000,000 each occurrence for all covered losses, a general aggregate limit of not less than \$2,000,000, and a deductible or retention of \$25,000 or less from a carrier with an AM Best financial strength rating of AX or higher. If such CGL insurance contains a general aggregate limit, it shall apply separately to work under each Contract. CGL Insurance shall be written on ISO occurrence form CG 00 01 01 (or a substitute form providing equivalent or greater coverage) and coverage must include: a) commercial form, b) premises/operations, c)

underground, explosions and collapse hazard, d) products-completed operations, e) contractual liability insurance, f) independent contractors, g) broad form property damage, h) personal injury (with employment exclusion deleted, if applicable), i) advertising injury, j) liability assumed under an insured contract (including the tort liability or another assumed in a business contract) and cross-liability coverage. Owner shall be included as an additional insured under CGL policies using ISO endorsement form CG 20 10, CG 20 26 (or a substitute form providing equivalent or greater coverage).

Contractor shall maintain products/completed operations coverage with a combined single limit not less than \$2,000,000 per occurrence for a period of at least thirty-six months following final acceptance of Contractor's work by Owner.

(c) **Automobile Liability ("AL") Insurance** with a minimum limit of not less than \$1,000,000 per each occurrence of bodily injury and property damage, with a deductible or retention of \$5,000 or less from a carrier with an AM Best financial strength rating of AX or higher. Such insurance shall cover liability arising out of any vehicles (including owned, hired and non-owned vehicles as well as trailers used therewith). Owner shall be included as an additional insured.

(d) **Primary Insurance.** Contractor's insurance as set forth above shall apply as primary insurance with respect to any other insurance or self-insurance programs afforded to Owner.

(e) **Umbrella / Excess Liability Insurance.** Contractor shall also maintain Umbrella Excess Liability insurance of not less than \$5,000,000 over the primary insurance above (i.e., additional protection above and beyond workers' compensation, CGL and AL policies above), from a carrier with an AM Best financial strength rating of AX or higher. Owner shall be included as an additional insured under Contractor's Umbrella Excess Liability policies.

(f) **Deductibles or Self-Insured Retentions.** Any and all deductibles or self-insured retentions in the above described insurance policies shall be assumed by and be on the account of and at the sole risk of the Contractor.

(f) **Evidence of Insurance.** Prior to the commencement of the work, and at all times during the performance of the work under each Contract, Contractor shall furnish Owner with a certificate(s) of insurance, executed by a duly authorized representative of each insurer, showing compliance with the insurance requirements set forth above. All certificates shall provide that thirty (30) days' written notice will be given to Owner prior to the cancellation, non-renewal or material change of any insurance set forth above. Contractor shall provide certified copies of insurance policies set forth above within ten (10) days of Owner's written request for said copies.

(g) **Failure to Maintain and Evidence Insurance.** In the event that Contractor fails to maintain and evidence insurance as set forth above, Owner shall have the right, but not the obligation, to suspend or terminate work under this Contract, withhold payment to Contractor under this Contract or to purchase required coverage at Contractor's expense.

(h) **No Representation of Coverage Adequacy.** By requiring insurance herein, Owner does not represent that coverage and limits will necessarily be adequate to protect Contractor, and such coverage and limits shall not be deemed as a limitation on Contractor's liabilities under this Agreement.

(i) **No Right of Recovery or Subrogation against Owner.** Neither Contractor nor any of the carriers issuing the above-described insurance shall have any right of recovery or subrogation against Owner (including its employees, officers and agents), it being the intention of the parties that the insurance policy so effected shall protect the parties in the primary and excess coverage for any and all losses covered by the above-described insurance.

3.7. **Hold Harmless.** Contractor hereby indemnifies and agrees to hold harmless and defend Owner, its officers, employees, agents and invitees, from and against all claims, liabilities, losses, injuries, and damages of every nature, directly or indirectly arising out of any negligent (or any higher level of culpability) act or failure to act by Contractor, its officers, employees, agents, or invitees, or by a subcontractor(s), its or their officers, employees, agents or invitees. Contractor agrees that the foregoing indemnification clause shall be insured under its Commercial General Liability policy, which must be endorsed to include Contractual Liability. In the event that any damage or injury is caused by the joint or concurrent negligence of Contractor and any party or parties indemnified hereunder, the loss and all associated costs shall be borne by Contractor and said party or parties proportionately to their degree or negligence.

3.8. **Permits and Licenses.** Contractor and any subcontractor(s) hereunder shall obtain, and maintain at their own expense, any necessary permits and licenses, except as may be specifically agreed to be secured by Owner in accordance with the terms of the Contract, and Contractor hereby indemnifies and agrees to defend Owner and hold Owner harmless from and against all damages, liabilities and penalties imposed for failure so to do.

3.9. **Compliance with Laws.** Contractor and its subcontractor(s), and their employees, shall comply with all applicable laws, ordinances, codes and regulations, and Contractor hereby indemnifies and agrees to defend Owner and hold Owner harmless from and against all damages, liabilities and penalties imposed for failure so to do.

3.10. **Lien Indemnification.** Contractor shall keep Owner's property free from liens, claims and encumbrances (Mechanics', Materialmen's Laborers', or otherwise), and hereby agrees to defend Owner and hold Owner harmless therefrom. Contractor or its subcontractor(s) or supplier(s) shall, upon request of Owner, furnish an affidavit releasing Owner from any and all claims against the work or related contracts. Without limitation on the foregoing and in the absence of good-faith disputes, Contractor will promptly pay all of its subcontractors and suppliers so as to prevent any subcontractor or supplier from invoking any remedies available by law against Owner's property or against funds due to Contractor from Owner or otherwise.

3.11. **Care, Custody and Control.** Care, custody and control of all materials, equipment, apparatus and supplies furnished by Contractor hereunder shall remain in the Contractor until notice is given by Contractor to Owner and accepted by Owner in writing that all work under the Contract has been completed, and all risk of physical loss or damage thereto shall be, and remain, in Contractor until all work under the Contract has been completed and accepted. The provisions of this paragraph 3.11 shall also apply to material furnished by Owner to Contractor

from the time of delivery of such material to the Contractor until notice is given by Contractor to Owner and accepted by Owner in writing that all work under the Contract has been completed, and all risk of physical loss or damage thereto shall be, and remain, in Contractor until all work under the Contract has been completed and accepted in writing by Owner.

3.12. Independent Contractor. It is agreed that Contractor, at any time and all times during the performance of its work hereunder, is acting as an independent contractor and not as the agent or common-law employee of Owner.

3.13. Assignment. Owner shall have the right at any time or times to assign to others all or any part of its rights and obligations under the Contract. Contractor shall not have any such right, nor the right to subcontract any part or all of its obligations, without the prior written consent of Owner. Any consent by Owner to subcontracting hereunder shall not relieve Contractor of its obligations under the Contract, and, as between the parties hereto, Contractor shall be and remain liable as if no such subcontract had been made. Any assignee or subcontractor of Contractor agreed to by Owner shall be liable with the Contractor for the due performance of all obligations hereunder.

3.14. Time of Completion. The time for completion of the work is as set forth in the Contract and the Contractor shall complete the work within the specified length of time. Time shall be of the essence of the Contract. When, in the opinion of Owner, the work will not be completed with the stipulated time at the rate of progress then in effect, and the delay is caused by Contractor, Owner may notify Contractor to increase the rate of progress. Upon receipt of such notice, the Contractor shall work, and cause his subcontractor(s) to work, additional hours during the day, or additional days during the week, or both. Any resulting overtime payments or increases in cost shall not give rise to any additional expense to Owner. The exercise of any one or more of Owner's rights shall not limit Owner's right to exercise any other rights and remedies Owner may have under the Contract or by law or equity for the breach of any of Contractor's obligations.

3.15. Waivers. Any failure by Contractor or Owner at any time, or from time to time, to enforce or require the strict keeping and performance of any of the terms or conditions of the Contract shall not constitute a waiver of any such terms or conditions and shall not affect or impair such terms or conditions in any way, or the right of the Contractor or Owner at any time to avail itself of such remedies as it has for any breach or breaches of such terms or conditions.

3.16. Intentionally left blank.

3.17. Safety Requirements.

(a) Contractor alone is obligated to provide for the health and safety of its employees and that of its subcontractor(s) and vendors at the jobsite and assumes all responsibility to provide them with a safe place to work. Contractor agrees to perform the work in a safe manner and to abide by, and enforce, all federal, state and local safety laws, rules or regulations governing the performance of its work. Contractor shall furnish all apparel, materials, equipment, tools, labor, instruction, and supervision necessary for the safety of its employees and subcontractors and vendors, and their respective employees, and for its compliance with these safety laws, rules and regulations. Contractor shall observe, and be bound

by, all of the current requirements and regulations of the Occupational Safety and Health Act of 1970 ("OSHA"), and any amendments thereto, and any applicable state or local health and safety laws, standards, or regulations. In addition, all work shall be performed in accordance with Owner's established safety rules and regulations, copies of which will be provided upon request. Contractor shall be responsible for ensuring that each of its subcontractor(s) and vendors observes, complies with, and is bound by all such applicable safety rules, regulations, and obligations. Contractor shall cooperate with Owner and its other contractors in their respective safety programs. Contractor shall furnish all information concerning the safety of its operations on the project as may be requested. Upon request, Contractor shall furnish Owner with a copy of its plan for compliance with any applicable "right to know" laws concerning hazardous materials in the work place. Contractor shall furnish Owner with Material Safety Data Sheets for any hazardous materials used by Contractor.

Prior to performing any work on the premises of MPC, Independent Contractor shall cause a complete, detailed and thorough inspection to be performed by its representatives throughout the area in which Independent Contractor's work will be performed. Independent Contractor shall determine for itself whether the premises in which its work will be performed are safe for the work to be performed. In making this determination, Independent Contractor shall not rely upon any representations made by any representative of MPC, or upon any assumption that the premises on which the work is being performed meets any standards or requirements. Independent Contractor does hereby agree to fully and completely indemnify and defend MPC and its officers, employees, and agents from and against any and all claims, costs, or damages, including attorneys' fees, arising from personal injury or property damage incurred by any employee, agent, or representative of Independent Contractor on the premises of MPC.

(b) Nothing in this Contract shall be construed as granting Owner the right to require Contractor to perform the work in an unsafe manner. Contractor shall have the right and shall always insist that the work be performed in a safe manner.

(c) Contractor shall comply with OSHA Standard 29 CFR 1926.50, medical services and first aid, in meeting its responsibility for providing health and first aid services for its employees.

(d) Contractor agrees to only send employees onto the work site that are fully and properly trained in work practices necessary to safely perform his/her job.

(e) Contractor shall immediately inform Owner of all injuries which occur to Contractor's employees or subcontractor's(s') employees at Owner's facility and other such information pertaining to the safety of its operations on the project as may be requested.

**3.18. Representatives and Employees.** Owner shall designate, and keep at the work site, a responsible field representative with authority to act for it. Contractor shall keep at the work site, at all times, a competent superintendent suitable to Owner. Contractor shall at all times enforce strict discipline and good order among its employees and shall not employ on the work any unfit person or anyone not skilled in the work assigned to him/her. Contractor shall remove or replace any employee determined by Owner to be unfit for work under this Contract, and any replacements shall be subject to prior written approval of Owner. Any employee

approved by Owner originally assigned to the work may not be removed from the job by Contractor without prior written consent of the Owner.

3.19. Inspection and Defects. All materials and workmanship shall be subject to inspection and test by Owner at all times and places, and when practicable, during construction. Inspection and acceptance shall not be conclusive as regards any defects. Inspection and acceptance or rejection of the materials or work shall be made as promptly as practicable. Neither inspection, nor anything disclosed thereby, nor acceptance, shall affect any warranty of Contractor or any remedies available to Owner under the Contract or by law or equity for Contractor's breach of any obligations. Upon being notified of defects in Contractor's work during such construction, repair, maintenance or other work, Contractor shall remedy such defects at its own expenses, subject to Owner's approval in writing as being in accordance with the Contract requirements.

3.20. Guarantee of Work. Contractor guarantees its work hereunder to the extent that it will repair or replace, at its own expense, any work, equipment or materials which, within twelve (12) months after Owner's acceptance of the work hereunder, is found to be defective if the finished work has been used in accordance with generally approved practice, and if Owner notifies Contractor promptly after the defect becomes apparent and promptly furnishes Contractor with particulars in connection therewith. Completion of the work shall mean the date that Contractor tenders the work to Owner as being complete and sufficient for returning to service. The guarantee provided in this paragraph is an additional obligation of Contractor under this Contract.

3.21. Site Investigation. By submitting its Proposal to Owner or commencing work in the absence of a Proposal, the Contractor certifies that it has taken steps reasonably necessary to ascertain the nature and location of the work and that it has investigated and satisfied itself as to the general and local conditions which can affect the work or its cost, including, but not limited to:

- (a) conditions bearing upon transportation, disposal and handling and storage of materials;
- (b) the availability and adequacy of labor, water, electric power and roads;
- (c) the uncertainties of weather, flooding patterns and water drainage or similar physical conditions at the site;
- (d) the ground conditions; and
- (e) the character of equipment and facilities needed preliminary to and during work performance which could interfere with the work.

The Contractor acknowledges that it has satisfied itself as to the character, quality and quantity of conditions or obstacles to be encountered insofar as this information is reasonably ascertainable from an inspection of the site, including all exploratory work done by the Owner and incorporated into the Contract Documents. Any failure of the Contractor to take the actions described and acknowledged in this paragraph 3.21 will not relieve the Contractor

from responsibility for estimating properly the difficulty and cost of successfully completing the work, without additional expense to Owner.

Owner assumes no responsibility for any conclusions or interpretations made by the Contractor based upon the information made available by Owner, nor does the Owner assume responsibility for any understanding reached or representation made concerning conditions which can affect the work by any of its officers or agents before the execution of this Contract unless that understanding or representation is expressly stated in the Contract Documents.

3.22. Protection of the Property. Contractor shall continuously maintain adequate protection of all its work from damage and shall protect Owner's property from injury or loss arising in connection with the Contract.

3.23. Cleanup. Contractor shall, at all times, keep the working area, including storage areas used by it, free from accumulations of waste material or rubbish and, prior to completion of the work, Contractor shall remove any rubbish and waste materials from the premises and shall remove from the premises all tools, scaffolding, equipment, and materials not the property of Owner. Upon completion of the work, Contractor shall leave the work and premises in a clean, neat and workmanlike condition satisfactory to Owner.

3.24. Laws. This Contract shall be construed under and governed by the laws of the state of Mississippi.

3.25. Drawings and Specifications. Upon completion of the work, Contractor shall furnish Owner, for its files, one complete set of final "as-built" drawings of the work, and five copies of any drawings, specifications and/or other informational materials and documents furnished by suppliers and manufacturers relating to materials, apparatus and equipment incorporated into the work performed hereunder.

3.26. Other Contracts. Wherever work being done by Owner's other contractors is contiguous to work covered by this Contract, the respective rights of the various interests involved shall be established by Owner.

3.27. Notice of Labor Disputes. Whenever Contractor has knowledge that any actual or potential labor dispute is delaying, or threatens to delay, the timely performance of this Contract, Contractor shall immediately give notice thereof, including all relevant information with respect thereto, to Owner. Contractor's labor disputes shall not excuse Contractor's obligation to complete its work within the scheduled time.

3.28. Force Majeure. Neither Contractor nor Owner shall be considered in default in the performance of its obligations hereunder if such performance is prevented or delayed because of accident or fire beyond the reasonable control of the party claiming force majeure, war, hostilities, revolution, civil commotion, epidemic, wind, flood; or because of any law, order, proclamation, regulation or ordinance of any government or of any subdivision thereof, other than those relating to the failure of the party claiming force majeure to secure permits which such party was obligated to secure; or because of acts of God; or for any other cause, whether similar or dissimilar to those enumerated, beyond the reasonable control of the party claiming force

majeure. When either of the parties hereto believes that its performance will be affected under this paragraph 3.28, the party so claiming the existence of a force majeure shall immediately notify the other party in writing. The party claiming force majeure shall proceed diligently to remove the cause of interference with its performance and upon request must demonstrate the validity of such claim to the other party.

3.29. Forum and Dispute Resolution. This Contract shall be construed in accordance with the laws of the state of Mississippi, without regard to principles of conflicts of laws thereof. Any action, claim, suit or proceeding between Owner and Contractor connected with, arising out of, or related to, this Contract, whether sounding in contract or tort, shall be initiated and prosecuted as to all parties and their successors and assigns solely and exclusively in the United States District Court for the Southern District of Mississippi, Southern Division, and each party waives, freely and completely, any right to dismiss and/or transfer any such dispute pursuant to 28 U.S.C. §§1404 and 1406. In the event said District Court does not have subject matter jurisdiction of such dispute, then the dispute shall be solely and exclusively initiated and prosecuted in the appropriate state court of competent jurisdiction located in Jackson County, Mississippi. The parties consent to *in personam* jurisdiction of the courts described herein.

3.30. Notices. All notices and other communications hereunder shall be validly given or made if in writing, when delivered personally (by courier service or otherwise), when delivered by facsimile, or when actually received when mailed by first-class certified U.S. mail, postage prepaid and return receipt requested, and all legal process with regard hereto shall be validly served when served in accordance with applicable law, in each case to the address of the party to receive such notice or other communication set forth below, or at such other address as either party hereto may from time to time advise in writing the other party pursuant hereto:

If to Owner: Mississippi Phosphates Corporation  
601 Industrial Road  
P. O. Box 848  
Pascagoula, Mississippi 39568  
Attention: C. E. McCraw, Chief Operating Officer  
Facsimile: 228-762-6037

If to Contractor: TMC Electric Motor Services  
1917 Brookdale Drive West  
Mobile, AL 36618  
Attention:  
Facsimile:

3.31. Billing Procedures. All invoices shall be mailed in duplicate to General Accounting, Mississippi Phosphates Corporation, P.O. Box 848, Pascagoula, Mississippi 39568-0848, unless Contractor is directed by Owner to submit invoices to other locations. Each invoice shall contain the following information (with additional documentation of cost attached as required by the type of contract involved and as further explained in subparagraphs (b) and (c) below):

(a) **General Information Required on All Invoices:**

- (i) Contract Number;
- (ii) Change Order Number, if applicable;
- (iii) Directive Number, if applicable;
- (iv) period covered by invoice;
- (v) amount of invoice; and
- (vi) total number of man-hours worked on job designated by the Contract.

**(b) Additional Information Required on Fixed-Price Contract Invoices and Fixed-Price Change Order Invoices:**

- (i) status of work within each work classification (documentation to be attached behind invoice shall include a summary which shows the physical percentage completed to date by work classification; e.g., percentage of work completed on foundation, percentage of work completed on piping, or other work classifications set forth in the Proposal);
- (ii) status of work setting forth the percentage of work completed on each separate change order or contract directive (percentage complete);
- (iii) total amount billed to date;
- (iv) amount retained; and
- (v) final invoice shall be so designated.

**(c) Additional information Required on Time and Materials Contract Invoices and Time and Materials Change Orders:**

- (i) status of work completed on each directive or change order (billing to date under the directive or change order);
- (ii) invoices shall be submitted, together with such supporting documentation as Owner may require, including, but not limited to, the following:
  - (1) time sheets and equipment rental schedules approved and signed by Owner's authorized representative; and
  - (2) vendor invoice, receiving report on materials purchased, itemized allowable expenses, and subcontractor's(s) invoices, all of which have been approved and signed by Owner's authorized representative;
- (iii) materials used from Contractor's warehouse and to be paid for by Owner shall be itemized, unit priced, and approved by Owner's authorized representative; and

- (iv) final invoice shall be so designated.

Failure to provide information required in this paragraph 3.31 will result in return of the invoice to Contractor for revision prior to payment by Owner.

**3.32. Time Limit for Contractor Billings.** For any day of work performed, equipment rented, materials or supplies purchased, travel or other expenses incurred by Contractor under every time and materials based Contract, Contractor shall deliver an invoice to Owner for such time and materials within seventy-five (75) calendar days after the date the work was performed or the date the expense was incurred. With respect to Contracts made on a time and materials basis, Owner shall not be obligated to pay for any time or materials for which Owner has not received an invoice within seventy-five (75) calendar days from the date the time or materials cost was incurred by Contractor.

**3.33. Environmental Control.** Contractor agrees to suspend work immediately upon written notification by Owner's general manager in the event Owner fails to obtain required approvals from environmental control agencies for the project or work under this Contract. At Owner's option, the work may then be terminated pursuant to paragraph 3.5 or Contractor shall remain on standby to resume performance as soon as the required approvals are obtained. If Owner elects to require Contractor to remain on standby, then all direct out of pocket costs and expenses reasonably incurred by Contractor as a result of such suspension shall be for Owner's account. The Contractor will resume work, in an orderly fashion, when notified by the Owner's general manager that approvals have been obtained. If changes in the work are required, they will be in accordance with other provisions of this Contract. Contractor shall furnish certain drawings and data necessary for Owner to make application for required environmental permits if requested by Owner.

**3.34. Construction Liens.** Without limitation on the requirements of paragraph 3.10, and as a condition to any payment to which Contractor may otherwise be entitled, Contractor, with each payment request, shall provide to Owner such waivers, covenants, representations and affidavits as Owner may reasonably require ("Lien Documents") with respect to construction-related liens and pertaining to funds paid and included in the current payment request. The Lien Documents shall include, but are not limited to, the following:

- (a) Lien Documents as required by Owner's construction lender, if any;
- (b) Lien Documents as required by any title insurance company in order to increase policy limits to include the amount of each requested payment;
- (c) Lien Documents verifying the current status of all payments and claims for payments from the Contractor to its subcontractors and suppliers; and
- (d) such other Lien Documents as Owner may reasonably require.

**3.35. Changes to Terms and Conditions.** The terms and conditions of this Agreement may be amended only by a written instrument signed by the parties hereto.

3.36 Ownership of Drawings and Specifications. Any Drawings, Specifications and other documents, including those in electronic format that are provided by Owner to Contractor or are presented or created by Contractor for Owner connection with this Contract or the performance thereof shall be owned by Owner who hereby retains all common law and statutory rights thereto. Contractor shall use any such documents solely for the purpose of performing this Contract.

3.37 Intentionally left blank.

3.38 Recitals, Headings and Capitalized Terms. The recitals at the beginning of this Agreement and the headings used throughout this Agreement are intended to be contractual in nature and thus are part of this Agreement. Capitalized terms appearing throughout this Agreement shall have the meaning as defined herein.

**ARTICLE IV: SPECIAL CONDITIONS APPLICABLE ONLY TO WORK PERFORMED ON  
A TIME AND MATERIALS BASIS, INCLUDING CHANGE ORDERS AND TIME AND  
MATERIALS CHANGE  
ORDERS TO FIXED-PRICE CONTRACTS**

4.1. Owner shall reimburse Contractor for the reasonable direct cost of the work, plus percentage markups, as set forth in paragraph 4.5. It is provided, however, that Contractor shall not be reimbursed for the cost of removing, replacing, and re-executing defective work which is rejected by Owner.

4.2. Owner will not directly reimburse Contractor for small tools and equipment, consumables, and expendables, which are defined under this Contract as items with a wholesale unit price of Five Hundred and 00/100 Dollars (\$500.00) or less. Owner will not directly reimburse Contractor for Contractor's salaried supervision. These costs are to be included in the percentage markups set forth in paragraph 4.5.

4.3. Owner may, in its sole discretion, elect to purchase or provide all or any part of the supplies, equipment, or materials to be utilized in the performance of the work. In this event, no charge for such supplies, equipment, or materials furnished by Owner shall be made hereunder.

4.4. Contractor shall furnish Owner with time sheets which shall be submitted daily to Owner's designated agent for approval. Contractor will submit a weekly time and equipment report which shall list in detail the labor and equipment cost and shall attach all applicable equipment rental invoices thereto. Contractor will prepare and furnish, at the completion of the work, a detailed statement of the cost of the work, arranged as required by Owner, for the Owner's permanent records.

Contractor will keep records, which shall be available for inspection and for final audit by Owner, showing the actual cost of all items of labor, apparatus, materials, supplies, tools, and services, and the amount of all other expenditures of whatever nature for which payment is authorized under the provisions of this Contract. Contractor will prepare and submit to Owner from time to time, as requested by Owner in writing, reports of the progress and cost of the work, including, but not limited to, periodic revisions of the originally estimated cost of the

work, reflecting cost and commitments actually incurred and made. All allocations for payment and commitments therein shall be in accordance with good accounting practices, or the code of accounts and accounting practices of Owner, if Owner so requests, and in such detail as may be reasonably requested by Owner.

At a reasonable time or times during the performance of its services hereunder, and until two (2) years after the completion of said services, Contractor will permit Owner or its certified public accountant to audit its records pertaining to the cost of work (including payroll records on all employees of Contractor who worked on any of Owner's contracts during the period of this Contract). After the completion of such audit, Owner shall advise Contractor of its disagreement, if any, with Contractor's statements which have previously been submitted to Owner. If, after such audit, it is agreed that one of the parties hereto is indebted to the other, the party so indebted will make prompt payment of such indebtedness.

In addition to Owner's rights to audit Contractor's records, Contractor shall include provisions in each of its contracts with subcontractor(s) to perform work hereunder which authorize Owner to audit subcontractor's(s') records and which provide the same audit rights as are provided to Owner with regard to Contractor's records pursuant to this paragraph 4.4.

4.5. Simultaneous with the execution of this Agreement, Contractor shall provide Owner with its current time and materials reimbursement rates and cost schedule ("Rate Schedule") in the form attached hereto as exhibit A. The prices and percentages in the Rate Schedule shall remain in force until Owner and Contractor both give written acceptance to a new Rate Schedule from time to time.

IN WITNESS WHEREOF, the parties have executed this Agreement effective the date first written above.

UPS Internet Shipping: View/Print Label

1. Ensure there are no other shipping or tracking labels attached to your package. Select the Print button on the print dialog box that appears. Note: If your browser does not support this function select Print from the File menu to print the label.

2. Fold the printed label at the solid line below. Place the label in a UPS Shipping Pouch. If you do not have a pouch, affix the folded label using clear plastic shipping tape over the entire label.

3. GETTING YOUR SHIPMENT TO UPS  
UPS locations include the UPS Store®, UPS drop boxes, UPS customer centers, authorized retail outlets and UPS drivers.  
Schedule a same day or future day Pickup to have a UPS driver pickup all of your Internet Shipping packages.  
Hand the package to any UPS driver in your area.  
Take your package to any location of The UPS Store®, UPS Drop Box, UPS Customer Center, UPS Alliances (Office Depot® or Staples®) or Authorized Shipping Outlet near you. Items sent via UPS Return Services(SM) (including via Ground) are also accepted at Drop Boxes. To find the location nearest you, please visit the 'Find Locations' Quick link at ups.com.

#### Customers with a Daily Pickup

Your driver will pickup your shipment(s) as usual.
