- (e) All insurance policies required under Paragraph 1 or the Subcontract Documents will (j) be issued by insurance companies that have an A.M. Best rating of A- VII or better and (ii) contain a provision that coverage afforded thereunder shall not be cancelled or restrictive modifications added, without thirty (30) days prior written notice by certified mail to the Contractor. If Subcontractor fails to purchase and maintain the insurance coverage required herein, Contractor may, but shall not be obligated to, obtain such insurance and either charge all costs for such insurance to the Subcontractor or offset the costs of such insurance against amounts due Subcontractor under the Subcontract.
- Certificates of Insurance will be filed with the Contractor prior to the start of the Subcontractor's Work on the Project Site. Such Certificates of Insurance will be in a form and substance acceptable to the Contractor and will provide satisfactory evidence that the Subcontractor has complied with all insurance requirements, including Contractor's, Owner's and any other required parties status as "additional insureds".
- Contractor may exclude Subcontractor from the Project Site and withhold payments to Subcontractor until a properly executed certificate of insurance evidencing the insurance required herein is received by Contractor.
- It is understood and agreed that the insurance coverages and limits required by this Subcontract shall not limit the extent of Subcontractor's responsibilities and liabilities specified within the Subcontract documents or under law.

2 Contractor's Builder's Risk Insurance.

Unless otherwise provided in the Subcontract Documents, Contractor will cause builder's risk insurance to be purchased and maintained with a "causes of loss" or equivalent policy form covering work to be performed by Contractor (including those working for or under Contractor) at the Project Size to the full insurable value thereof, on a replacement cost basis and subject to reasonable deductibles. Covered "causes of loss" means risks of direct physical loss or damage to covered property urises specifically excluded or limited under the policy. This insurance will include the interests of Owner, Contractor, Subcontractor and Sub-subcontractors in respect to the work to be performed by Contractor at the Project, and shall insure against poils of fire (with extended coverage), theft, vandelism, malicious mischief, collapse, earthquair, flood, windstorm, temporary falsework, shoring and forms and debris removal, and such other matters as are insured against in the form of the policy maintained by Contractor. Unless specifically provided in writing, such insurance will not include coverage for any property, structure(s) and contents (whether real or personal) owned by the Owrner or third parties existing as of commencement of Contractor's work or otherwise. Contractor will carry earthquake and flood insurance if Contractor deems it appropriate.

To the extent of coverage afforded by builder's risk or any other property or equipment floater insurance applicable to the Work or the Project or equipment used in the performance of the Work or Project, regardless of whether such insurance is owned by or for the benefit of Subcontractor, Contractor or Owner or their respective subcontractors and agents, Contractor and Subcontractor agree to waive all rights against (1) each other and any of their subcontractors, sub-subcontractors, agents and employees, each of the other, and (2) the Owner and any of its contractors, agents and employees, whether under subregation or otherwise, for loss or damage to the extent covered by such insurance, except such rights as they may have to the proceeds of such insurance. If policies of insurance referred to in this peragraph require an endorsement to provide for continued coverage where there is a waiver of subregation, then the owners of such policies will cause them to be so endorsed. A waiver of subregation shall be effective as to a party even though that party would otherwise have a duty of indemnification, contractual or otherwise, did not pay the insurance premium directly or indirectly, and whether or not the party had an insurable interest in the property damaged.

If (i) the Project suffers an insurable loss, (ii) the loss is due in part to the negligence of Subcontractor and (iii) an insurance deductible amount (not to exceed \$25,000.00) is applied to the loss psyable under builder's risk or other property insurance applicable to the Project, Subcontractor will be liable to Contractor for the deductible amount; however, Contractor may, in its discretion, apportion the deductible amount among other parties responsible for the loss. Subcontractor will promptly pay Contractor, upon demand, for any such deductible amount, and Contractor may offset the deductible amount against any amounts due Subcontractor under the Subcontract. Neither Contractor nor Owner represents that builder's risk or property insurance, if any, applicable to the Project or the Work is adequate to protect the interests of Subcontractor. It is Subcontractor's obligation to determine whether it should purchase and maintain supplementary property insurance to protect its interests in the Work.

- 2.2 Any insured loss is to be adjusted by Owner and Contractor and made payable to Contractor, as trustee, or to Owner and Contractor, as joint trustees for the insureds, as their interests may appear, subject to the requirements of any applicable mortgage or loss payable clause.
- 2.3 Subcontractor hereby releases and agrees to defend and indemnify Contractor and Owner from all claims for loss or damage to or loss of use of Subcontractor's property in or about the Project Site and shall purchase such insurance in respect thereto as Subcontractor deems appropriate. Subcontractor shall require a similar release and indemnity by Sub-subcontractors.
