Information concerning copyright in maps

When To Use Form F. Form F is appropriate for published maps.

What Is a "Map"? In general, the term "map" refers to cartographic representations of area. Common examples include terrestrial maps and atlases, marine charts, celestial maps, and such three-dimensional works as globes and relief models.

Unpublished Works. A work cannot be registered as a "map" in unpublished form. Unpublished works are protected at common law against unauthorized use prior to publication.

Duration of Copyright. Statutory copyright in published maps lasts for 28 years from the date of first publication, and may be renewed for a second 28-year term.

How to secure statutory copyright in a map

First: Produce Copies of the Map With Copyright Notice. Produce the map in copies by printing or other means of reproduction. To secure copyright, it is essential that the copies bear a copyright notice in the required form and position, as explained below.

Second: Publish the Map With Copyright Notice. The copyright law defines the "date of publication" as ". . . the earliest date when copies . . . were placed on sale, sold, or publicly distributed."

Third: Register Your Copyright Claim. Promptly after publication, mail to the Register of Copyrights, Library of Congress, Washington 25, D. C., two complete copies of the map as published with notice, an application on Form F, properly completed and signed, and a fee of $4.

The Copyright Notice. The copyright notice for maps should appear on the face of the work or, if it is issued in book form, on the title page or verso thereof. It should ordinarily consist of the word "Copyright," the abbreviation "Copr.," or the symbol ©, accompanied by the name of the copyright owner. The year date of publication may be included in the notice, but normally it is not required unless the work could also be regarded as a "book."

—Alternative Form of Notice. As an alternative, the notice for maps may consist of the symbol ©, accompanied by the initials, monogram, or mark of the copyright owner, provided the owner's name appears on some accessible part of the copies.

—U. C. C. Notice. Use of the symbol © with the name of the copyright owner and the year date of publication may result in securing copyright in countries which are parties to the Universal Copyright Convention. Example: © John Doe 1958.

NOTE: It is the act of publication with notice that actually secures copyright protection in a map. If copies are published without the required notice, the right to secure copyright is lost, and cannot be restored.
