Disclosures and Other Information

Pricing - This section includes the net market value of the securities in your account on a settlement date basis, including short positions, at the close of the statement period. The market prices have been obtained from quotation services, which we believe to be reliable; however, we cannot guarantee their accuracy. Securities for which a price is not available are marked "N/A" and are omitted from the Total. The estimated annual income (EAI) and estimated current yield (ECY) figures are estimates and for informational purposes only. These figures are not considered to be a forecast or guarantee of future results. These figures are computed using information from providers believed to be reliable; however, no assurance can be made as to the accuracy. Since interest and dividend rates are subject to change at any time, and may be affected by current and future economic, political, and business conditions, they should not be relied on for making investment, trading, or tax decisions. These figures assume that the position quantities, interest and dividend rates, and prices remain constant. A capital gain or return of principal may be included in the figures for certain securities, thereby overstating them. Refer to www.pershing.com/business_continuity.html for specific details as to formulas used to calculate the figures. Accrued interest represents interest earned but not yet received.

Portfolio Holdings (continued)

The Estimated Price as of Date only appears when the price date does not equal the statement date and the price indicated is estimated since it is not reflective of a last trade price on a recognized exchange.

Reinvestment - The dollar amount of Mutual Fund distributions, Money Market Fund dividend income, Bank Deposit interest income, or dividends for other securities shown on your Statement may have been reinvested. You will not receive confirmation of these reinvestments. However, information pertaining to these transactions which would otherwise appear on confirmations, including the time of execution and the name of the person from whom your security was purchased, will be furnished to you upon written request to your introducing firm. In dividend reinvestment transactions, Pershing acts as your agent and receives payment for order flow, the source and nature of which payment will be furnished to you upon written request to your introducing firm.

Foreign Currency Transactions - Pershing may execute foreign currency transactions as principal for your account. Pershing may automatically convert foreign currency to or from U.S. dollars for dividends and similar corporate action transactions unless you instruct your financial organization otherwise. Pershing's currency conversion rate will not exceed the highest interbank conversion rate identified from customary banking sources on the conversion date or the prior business day, increased by up to 1%, unless a particular rate is required by applicable law. Your financial organization may also increase the currency conversion rate. This conversion rate may differ from rates in effect on the date you executed a transaction, incurred a charge, or received a credit. Transactions converted by agents (such as depositories) will be billed at the rates such agents use.

Proxy Vote - Securities held by you on margin (securities not fully paid for by you) may be lent by Pershing to itself or others in accordance with the terms outlined in the Margin Agreement. The right to vote your shares held on margin will be reduced by the amount of shares on loan. The Proxy Voting Instruction Form sent to you may reflect a smaller number of shares entitled to vote than the number of shares in your margin account.

Although a money market mutual fund seeks to preserve the value of your investment at \$1 per share, it is possible to lose money by investing in a money market mutual fund. Please see the money market mutual fund's prospectus or contact your investment professional for additional information.

Investors Capital is pleased to inform you of a new service that we are providing our investors to assist them in automatically and electronically filing for securities class action claims. The service analyzes your account for securities class action settlements for which you may be eligible to make claims and will file claims electronically.

There have been approximately 1,200 securities class action cases over the past ten years, with over \$55 billion in settlements. Most investors do not file claims or do so incorrectly. With this service, we believe claims can be filed on your behalf quickly and easily, and all recovered funds will be deposited automatically back into your account.

We are providing this service through an unaffiliated third party, Financial Recovery Technologies LLC, (FRT), a leader in the field. FRT does not charge an upfront fee but is compensated on a percentage-of-recovery success fee basis.

Investors Capital will be commencing the program with FRT starting on April 1, 2012 and will update you periodically as claims settlements are received. If you prefer not to participate in this program, please advise us at any time by calling the operations department at 800-550-0998 and we will be sure to remove your account from the program.

REMINDER: When making a deposit to this account checks should be made payable to "Pershing LLC" and include the account number on the check to be deposited. Checks made payable to Investors Capital Corporation, Investors Capital, Investors Capital Holdings, ICC or any variation thereof, will not be accepted. **Additionally, please note that under no circumstances should you give cash to or make any checks payable to your financial advisor or to your financial advisor's business name or DBA name.** If you should have any questions, please contact your financial advisor or the Investors Capital Operations Department at 800-550-0998.

Important Arbitration Disclosures and Important Arbitration Agreement

Important Arbitration Disclosures

- All parties to this agreement are giving up the right to sue each other in court, including the right to a trial by jury, except as provided by the rules of the arbitration forum in which a claim is filed.
- Arbitration awards are generally final and binding; a party's ability to have a court reverse or modify an arbitration award is very limited.
- The ability of the parties to obtain documents, witness statements and other discovery is generally more limited in arbitration than in court proceedings.
- The arbitrators do not have to explain the reason(s) for their award, unless, in an eligible case, a joint request for an explained decision has been submitted by all parties to the panel at least 20 days prior to the first scheduled hearing date.
- The panel of arbitrators will typically include a minority of arbitrators who were or are affiliated with the securities industry.
- The rules of some arbitration forums may impose time limits for bringing a claim in arbitration. In some cases, a claim that is ineligible for arbitration may be brought in court.
- The rules of the arbitration forum in which the claim is filed, and any amendments thereto, shall be incorporated into this agreement.

Important Arbitration Agreement

Any controversy between you and Pershing LLC shall be submitted to arbitration before the Financial Industry Regulatory Authority. No person shall bring a putative or certified class action to arbitration, nor seek to enforce any predispute arbitration agreement against any person who has initiated in court a putative class action, who is a member of a putative class who has not opted out of the class with respect to any claims encompassed by the putative class action until; (I) the class certification is denied; (II) the class is decertified; or (III) the client is excluded from the class by the court. Such forbearance to enforce an agreement to arbitrate shall not constitute a waiver of any rights under this agreement except to the extent stated herein. The laws of the State of New York govern.
